*Speaking the Truth in Love* Daniel R. Berger, 2007-01-01 Approaching public communication from a liberal arts point of view *Speaking the Truth in Love* provides a distinctly Christian perspective of rhetoric Written and oral rhetoric are interwoven throughout the text Two foundational ideas control the majority of the text The first is from Plato's Phaedrus as stated by Paul in Ephesians 4:15 speaking the truth in love The second is from the Apostle Peter in 1 Peter 4:11 if anyone speaks he should do it as one speaking the very words of God The spiritual responsibility of communicating truth in accordance with the nature of God especially the virtue of love is an awesome privilege and opportunity Sound content spoken or written eloquently with charisma will enable words to have a maximum impact The text is designed to be a culminating learning experience for undergraduate communication programs or as an introductory text for graduate programs involving public communication Beginning with a philosophy of language meaning and interaction argument is

built against secular deconstructive thought where everyone has a different truth based on language. Alongside philosophy we explore ethics and theology from an evangelical perspective. Following this a brief history outlines rhetorical thought from pre-testament classics to today. Based upon these ideas we take a closer look at communication theory as it relates to public communication. Finally, the text addresses the practice of both written and oral communication.

*Intercultural Education, Curriculum Development, Assessment and Teaching* Agostino Portera, Michael S. Trevisan, Marta Milani, 2025-05-30. This edited volume explores the specific ability of the school setting to promote intercultural education as an approach to address contemporary societal issues of justice and social inclusion. Highlighting the importance of schools as one of the first areas where diversity is encountered and experienced, this book offers case study chapters on the most recent pedagogical approaches, research questions, and frameworks for intercultural education and teaching. To address these approaches, the book uses comparative studies, systematic reviews, case study analyses, and theoretical and conceptual discussions. Written by an international team of experts in the field, chapters address new challenges in curriculum development for intercultural education and illustrate innovative ways to provide instruction through the use of technology and the arts. Fusing conceptual and methodological approaches, the book examines interculturality and associated instruction within schools, further exploring the frameworks and methodologies that govern contextually based, culturally responsive education. Offering in-depth treatment of cutting-edge pedagogies used to teach interculturality in culturally diverse settings, this book will be of interest to educators, researchers, and students studying intercultural education and studies, multicultural education, and the sociology of education more broadly.

In learning about a film director, it is important to analyze their personality, vision of cinema, directing style, creative artistic elements in film, as well as any other aspect of motion picture production that communicates their talents. With the goal of serving as a source of encouragement and valuable reference for beginning as well as seasoned film directors, *Techniques of the Film Masters* was written with that aim in mind.

**Understanding Everyday Incivility** Shelley D. Lane, 2017-08-28. *Understanding Everyday Incivility* delves into the day-to-day annoying behaviors that color our interactions with other people, such as the use of crude language in public, family members who claim that they're just teasing, and we're too sensitive; coworkers who constantly interrupt us; and inflammatory remarks posted on social media sites. Shelley D. Lane explores what is considered uncivil behavior, why we label some acts as crude or selfish while others are deemed polite and proper, and how these labels often change from one context to the next. She highlights the power dynamics at play in our interactions and explains how rude behavior can sometimes be beneficial, and polite behavior can be detrimental.
