Schoenberg,2012-01 *Creation and Christ* Angela Costley,2020-11-09 The Epistle to the Hebrews is usually associated with its theology of Christ the High Priest However the term high priest is not so common in the first four chapters of Hebrews occurring only four times with a further reference to sacrifice in 1 3 Rather than emphasising the priestly or sacrificial activity of Christ these opening sections contain a number of references to creation 1 2 3 10 12 2 5 9 10 3 1 6 4 3 4 and 4 9 10 In this volume Angela Costley uses discourse analysis to explore the importance of the topic of creation to the discourse of the Epistle to the Hebrews uncovering a close link between creation and salvation She highlights the interaction of the topic of creation with the topic of salvation in the discourse to uncover a depiction of Christ as the creator who descends to take on human flesh God who becomes human in order to lead humanity heavenward **Specificational and Presentational There-Clefts** Kristin Davidse,Ngum Meyuhnsi Njende,Gerard O'Grady,2023-07-31 This book proposes a radically new account of clefts in English Since the 1960s functional as well as formal linguists have generally restricted clefts to constructions with an identifying matrix it clefts and have claimed that they only code information structure Clefts are assumed to unpack a simple proposition into a focus presupposition structure In this book the authors reject these theoretical descriptive assumptions arguing instead that clefts form a field comprising it clefts there clefts and have clefts They show that like any other construction clefts compositionally code propositional

semantics onto which a great variety of prosodically coded focus patterns may be mapped The authors fundamentally challenge the existing approach by entering the debate with an in depth account of the neglected specificational and presentational there clefts offering the first systematic data based study of their grammatical and prosodic features While the study is restricted to English its findings have significant cross linguistic relevance This book will be of interest to students and scholars of Functional Cognitive and Formal Linguistics Corpus Linguistics and usage based study of grammar and prosody
