The Sublime Object of Orientalism Paul Bowman,2026-03-02 The Sublime Object of Orientalism proposes that globalised Asian physical cultural practices such as taiji qigong yoga and meditation can be understood by examining the intimate connection between Western orientalism and the Romantic aesthetic notion of the sublime The book recasts orientalist physical culture as practices animated by the

sublime and argues that this relationship is stronger than has hitherto been recognised by commentators Bowman combines new readings of philosophers and cultural critics such as Slavoj Žižek and Jane Iwamura with analyses of film media and Asian physical practices and their entrepreneurial forms to shed light on the quest to articulate a philosophy of orientalist physical culture He also explores ways to make sense of orientalist physical culture in the contemporary world and evaluate the often problematic ideologies that circulate around these cultural practices without either uncritically accepting their value or rejecting them outright This empathetic and accessible volume is a must read for students researchers and teachers of cross cultural studies cultural theory postcolonialism and orientalism

Becoming the Iceman Wim Hof,Justin Rosales,2011-11 Becoming the Iceman is a project inspired by Wim and Justin to show the world that anyone can adopt the ability to become an Iceman or Icewoman The project s goal is to show that the ability to control the body s temperature is not a genetic defect in Wim but an ability that can be adopted by everyone For many generations we have been taught to fear the cold Don t forget your jacket You don t want hypothermia do you Put your gloves on before you get frostbite Of course these are consequences of extreme cold exposure but with the proper understanding anyone can learn to use the cold as a natural teacher You may have seen Wim Hof on television running barefoot through the snow or swimming in ice cold waters While performing those incredible feats Wim remained completely warm and comfortable the entire time Wim is the epitome of what can happen if someone uses the cold to train the body Like any new tool you must understand how it works before you can use it efficiently This pertains to the cold as well You may be wondering How can you prove that anyone can learn this ability Well as of Fall 2009 Justin Rosales had no experience with the cold whatsoever He was a college student attending Penn State University After Justin s friend Jarrett showed him one of Wim s videos on You Tube he became exceedingly interested in understanding this ability He wanted to see if it was possible for anyone to learn In Spring 2010 after speaking to Wim for several months via email Wim invited Justin to attend his workshop in Poland After many weeks of working as a dishwasher Justin was able to pay for the trip and learn the technique of the Iceman With more training and countless experiences with the cold Justin began to slowly adapt The length of time he could remain exposed increased dramatically He quickly realized that the technique to withstand the cold was indeed an ability that could be learned by everyone This book tells the tale of Wim and Justin s journey to Becoming the Iceman
