Program Description

The Information Technology Certificate program is designed to provide students with the fundamental computer knowledge and skills required in the current corporate workplace. The student will demonstrate acquired skills in utilizing computer tools, database management, and business and web applications in the workplace.

Program Outcomes

Upon successful completion of the program, the student should be able to:

- Demonstrate proficiency in the use of current Microsoft Office Suite products.
- Identify and evaluate computer systems issues and implement effective remediation policies.
- Utilize Microsoft Access to create and manipulate databases.
- Utilize and define the computer system components and application system operational characteristics.
- Perform problem diagnosis, troubleshooting, and system maintenance on multiple types of computer systems.
- Design basic websites and manipulate webpage components.

Potential Employment

Upon successfully completing this program the graduate should qualify to fill entry-level positions in the corporate office structure and other positions requiring utilization of the concepts and skills of Information Technology.

* ACOT's program courses are designed in sequential order. Therefore, the student must complete the given course before progressing to the next course in the sequence.
