The Tech Lash Against Google Facebook And Amazon Is:

The Techlash and Tech Crisis Communication Nirit Weiss-Blatt,2021-03-24 The Techlash and Tech Crisis Communication provides an in depth analysis of the evolution of tech journalism The emerging tech backlash is a story of pendulum swings we are currently in tech dystopianism after a long period spent in tech utopianism [Big Tech Tyrants](#) Floyd Brown,Todd Cefaratti,2019-09-03 As seen on Tucker Carlson They are driven without respect for the lives they are changing Boy Kings or Big Tech Tyrants are considered the most powerful individuals in the world They re the autocratic aristocrats who run the tech giants in Silicon Valley and if the labels are accurate they suggest these social platform operators have gained a non elected or should we say a self elected authoritarian power They wield it with more effectiveness and precision than any sitting government or military strategist Big Tech Tyrants boast riches beyond emperors of old but act like juveniles who don t want to grow up They are modern day robber barons Big Tech Tyrants don t know the meaning of privacy when it comes to you They try to make you believe they will give their products away for free as a service to society when really they are vacuuming your personal data They use this data to discover your deepest secrets Are you or your partner trying to get pregnant Are you underwater financially Are you having an extramarital affair Do you have a tidy nest egg Are you a Trump supporter Are you a Bernie Sanders follower Are you a Scientologist Mormon Christian or Buddhist Your personal data is extremely valuable to them and they use it and abuse These tyrants knowingly addict users to make more money Not only that they also consider themselves the most enlightened the world has ever seen so they know what s best for you to see from the news and information you read to the political candidates they think you should vote for They censor news and only let you see what they want you to see This is an eye opening must read for anyone living in the twenty first century *Techlash* Tom Wheeler,2023-10-15 Hailed by Publishers Weekly as a potent primer on the need to rein in big tech and Kirkus Reviews as a rock solid plan for controlling the tech giants readers will be energized by Tom Wheeler s vision of digital governance Featured on Barack Obama s 11 3 23 list of What I m Reading on the Rise of Artificial Intelligence An accessible and visionary book that connects the experiences of the late 19th century s industrial Gilded Age with its echoes in the 21st century digital Gilded Age Hailed by Ken Burns as one of the foremost explainers of technology and its effect throughout history Tom Wheeler now turns his gaze to the public impact of entrepreneurial innovation In *Techlash* he connects the experiences of the late 19th century s industrial Gilded Age with its echoes in the 21st century digital Gilded Age In both cases technological innovation and the great wealth that it created ran up against the public interest and the rights of others As with the Industrial Revolution and the Gilded Age that it created new digital technology has changed commerce and culture creating great wealth in the process all while being essentially unsupervised Warning that today is not the Fourth Industrial Revolution some envision Wheeler calls for a new era of public interest oversight that leaves behind industrial era regulatory ideas to embrace a new process of agile supervised and enforced code setting that

protects consumers and competition while encouraging continued innovation Wheeler combines insights from his experience at the highest echelons of business and government to create a compelling portrait of the need to balance entrepreneurial innovation with the public good Once again Tom Wheeler makes sense out of the dizzying technological changes that often seem to initially befuddle and beset us before they come into sharper focus a focus he brings to each page and each new idea it sometimes takes an original thinker to make clearer the mess in front of us Bravo Ken Burns

Digital Dominance Martin Moore, Damian Tambini, 2018-05-08 Across the globe Google Amazon Facebook Apple and Microsoft have accumulated power in ways that existing regulatory and intellectual frameworks struggle to comprehend A consensus is emerging that the power of these new digital monopolies is unprecedented and that it has important implications for journalism politics and society It is increasingly clear that democratic societies require new legal and conceptual tools if they are to adequately understand and if necessary check the economic might of these companies Equally that we need to better comprehend the ability of such firms to control personal data and to shape the flow of news information and public opinion In this volume Martin Moore and Damian Tambini draw together the world's leading researchers to examine the digital dominance of technologies platforms and look at the evidence behind the rising tide of criticism of the tech giants In fifteen chapters the authors examine the economic political and social impacts of Google Amazon Facebook Apple and Microsoft in order to understand the different facets of their power and how it is manifested Digital Dominance is the first interdisciplinary volume on this topic contributing to a conversation which is critical to maintaining the health of democracies across the world

Move Fast and Break Things Jonathan Taplin, 2017-04-18 The book that started the Techlash A stinging polemic that traces the destructive monopolization of the Internet by Google Facebook and Amazon and that proposes a new future for musicians journalists authors and filmmakers in the digital age Move Fast and Break Things is the riveting account of a small group of libertarian entrepreneurs who in the 1990s began to hijack the original decentralized vision of the Internet in the process creating three monopoly firms Facebook Amazon and Google that now determine the future of the music film television publishing and news industries Jonathan Taplin offers a succinct and powerful history of how online life began to be shaped around the values of the men who founded these companies including Peter Thiel and Larry Page overlooking piracy of books music and film while hiding behind opaque business practices and subordinating the privacy of individual users in order to create the surveillance marketing monoculture in which we now live The enormous profits that have come with this concentration of power tell their own story Since 2001 newspaper and music revenues have fallen by 70 percent book publishing film and television profits have also fallen dramatically Revenues at Google in this same period grew from 400 million to 74.5 billion Today Google's YouTube controls 60 percent of all streaming audio business but pay for only 11 percent of the total streaming audio revenues artists receive More creative content is being consumed than ever before but less revenue is flowing to the creators and owners of that content The stakes here go far beyond the

livelihood of any one musician or journalist As Taplin observes the fact that more and more Americans receive their news as well as music and other forms of entertainment from a small group of companies poses a real threat to democracy Move Fast and Break Things offers a vital forward thinking prescription for how artists can reclaim their audiences using knowledge of the past and a determination to work together Using his own half century career as a music and film producer and early pioneer of streaming video online Taplin offers new ways to think about the design of the World Wide Web and specifically the way we live with the firms that dominate it

Don't Be Evil Rana Foroohar,2021-02-09 A penetrating indictment of how today s largest tech companies are hijacking our data our livelihoods our social fabric and our minds from an acclaimed Financial Times columnist and CNN analyst WINNER OF THE PORCHLIGHT BUSINESS BOOK AWARD ONE OF THE BEST BOOKS OF THE YEAR Foreign Affairs Evening Standard Don t be evil was enshrined as Google s original corporate mantra back in its early days when the company s cheerful logo still conveyed the utopian vision for a future in which technology would inevitably make the world better safer and more prosperous Unfortunately it s been quite a while since Google or the majority of the Big Tech companies lived up to this founding philosophy Today the utopia they sought to create is looking more dystopian than ever from digital surveillance and the loss of privacy to the spreading of misinformation and hate speech to predatory algorithms targeting the weak and vulnerable to products that have been engineered to manipulate our desires How did we get here How did these once scrappy and idealistic enterprises become rapacious monopolies with the power to corrupt our elections co opt all our data and control the largest single chunk of corporate wealth while evading all semblance of regulation and taxes In Don t Be Evil Financial Times global business columnist Rana Foroohar tells the story of how Big Tech lost its soul and ate our lunch Through her skilled reporting and unparalleled access won through nearly thirty years covering business and technology she shows the true extent to which behemoths like Google Facebook Apple and Amazon are monetizing both our data and our attention without us seeing a penny of those exorbitant profits Finally Foroohar lays out a plan for how we can resist by creating a framework that fosters innovation while also protecting us from the dark side of digital technology Praise for Don t Be Evil At first sight Don t Be Evil looks like it s doing for Google what muckraking journalist Ida Tarbell did for Standard Oil over a century ago But this whip smart highly readable book s scope turns out to be much broader Worried about the monopolistic tendencies of big tech The addictive apps on your iPhone The role Facebook played in Donald Trump s election Foroohar will leave you even more worried but a lot better informed Niall Ferguson Milbank Family Senior Fellow at the Hoover Institution Stanford and author of The Square and the Tower

World Without Mind Franklin Foer,2018-09-11 A New York Times Book Review Notable Book of 2017 One of the best books of the year by The New York Times LA Times and NPR Franklin Foer reveals the existential threat posed by big tech and in his brilliant polemic gives us the toolkit to fight their pervasive influence Over the past few decades there has been a revolution in terms of who controls knowledge and information This rapid change has imperiled the way we think Without

pausing to consider the cost the world has rushed to embrace the products and services of four titanic corporations We shop with Amazon socialize on Facebook turn to Apple for entertainment and rely on Google for information These firms sell their efficiency and purport to make the world a better place but what they have done instead is to enable an intoxicating level of daily convenience As these companies have expanded marketing themselves as champions of individuality and pluralism their algorithms have pressed us into conformity and laid waste to privacy They have produced an unstable and narrow culture of misinformation and put us on a path to a world without private contemplation autonomous thought or solitary introspection a world without mind In order to restore our inner lives we must avoid being coopted by these gigantic companies and understand the ideas that underpin their success Elegantly tracing the intellectual history of computer science from Descartes and the enlightenment to Alan Turing to Stewart Brand and the hippie origins of today s Silicon Valley Foer exposes the dark underpinnings of our most idealistic dreams for technology The corporate ambitions of Google Facebook Apple and Amazon he argues are trampling longstanding liberal values especially intellectual property and privacy This is a nascent stage in the total automation and homogenization of social political and intellectual life By reclaiming our private authority over how we intellectually engage with the world we have the power to stem the tide At stake is nothing less than who we are and what we will become There have been monopolists in the past but today s corporate giants have far more nefarious aims They re monopolists who want access to every facet of our identities and influence over every corner of our decision making Until now few have grasped the sheer scale of the threat Foer explains not just the looming existential crisis but the imperative of resistance

The Four Scott Galloway,2018-09-04 NEW YORK TIMES BESTSELLER USA TODAY BESTSELLER Amazon Apple Facebook and Google are the four most influential companies on the planet Just about everyone thinks they know how they got there Just about everyone is wrong For all that s been written about the Four over the last two decades no one has captured their power and staggering success as insightfully as Scott Galloway Instead of buying the myths these compa nies broadcast Galloway asks fundamental questions How did the Four infiltrate our lives so completely that they re almost impossible to avoid or boycott Why does the stock market forgive them for sins that would destroy other firms And as they race to become the world s first trillion dollar company can anyone chal lenge them In the same irreverent style that has made him one of the world s most celebrated business professors Galloway deconstructs the strategies of the Four that lurk beneath their shiny veneers He shows how they manipulate the fundamental emotional needs that have driven us since our ancestors lived in caves at a speed and scope others can t match And he reveals how you can apply the lessons of their ascent to your own business or career Whether you want to compete with them do business with them or simply live in the world they dominate you need to understand the Four

The Tyranny of Big Tech Josh Hawley,2021-05-04 The reign of Big Tech is here and Americans First Amendment rights hang by a keystroke Amassing unimaginable amounts of personal data giants like Google Facebook Amazon and Apple once symbols of American ingenuity and freedom have become

a techno oligarchy with overwhelming economic and political power Decades of unchecked data collection have given Big Tech more targeted control over Americans daily lives than any company or government in the world In The Tyranny of Big Tech Senator Josh Hawley of Missouri argues that these mega corporations controlled by the robber barons of the modern era are the gravest threat to American liberty in decades To reverse course Hawley argues we must correct progressives mistakes of the past That means recovering the link between liberty and democratic participation building an economy that makes the working class strong independent and beholden to no one and curbing the influence of corporate and political elites Big Tech and its allies do not deal gently with those who cross them and Senator Hawley proudly bears his own battle scars But hubris is dangerous The time is ripe to overcome the tyranny of Big Tech by reshaping the business and legal landscape of the digital world

Don't Be Evil Rana Foroohar,2019-11-05 A penetrating indictment of how today s largest tech companies are hijacking our data our livelihoods our social fabric and our minds from an acclaimed Financial Times columnist and CNN analyst WINNER OF THE PORCHLIGHT BUSINESS BOOK AWARD ONE OF THE BEST BOOKS OF THE YEAR Foreign Affairs Evening Standard Don t be evil was enshrined as Google s original corporate mantra back in its early days when the company s cheerful logo still conveyed the utopian vision for a future in which technology would inevitably make the world better safer and more prosperous Unfortunately it s been quite a while since Google or the majority of the Big Tech companies lived up to this founding philosophy Today the utopia they sought to create is looking more dystopian than ever from digital surveillance and the loss of privacy to the spreading of misinformation and hate speech to predatory algorithms targeting the weak and vulnerable to products that have been engineered to manipulate our desires How did we get here How did these once scrappy and idealistic enterprises become rapacious monopolies with the power to corrupt our elections co opt all our data and control the largest single chunk of corporate wealth while evading all semblance of regulation and taxes In Don t Be Evil Financial Times global business columnist Rana Foroohar tells the story of how Big Tech lost its soul and ate our lunch Through her skilled reporting and unparalleled access won through nearly thirty years covering business and technology she shows the true extent to which behemoths like Google Facebook Apple and Amazon are monetizing both our data and our attention without us seeing a penny of those exorbitant profits Finally Foroohar lays out a plan for how we can resist by creating a framework that fosters innovation while also protecting us from the dark side of digital technology Praise for Don t Be Evil At first sight Don t Be Evil looks like it s doing for Google what muckraking journalist Ida Tarbell did for Standard Oil over a century ago But this whip smart highly readable book s scope turns out to be much broader Worried about the monopolistic tendencies of big tech The addictive apps on your iPhone The role Facebook played in Donald Trump s election Foroohar will leave you even more worried but a lot better informed Niall Ferguson Milbank Family Senior Fellow at the Hoover Institution Stanford and author of The Square and the Tower **The Manipulators** Peter J. Hasson,2020-02-04 The dawn of the digital age was supposed to be a new era when everybody would

have a voice and battle it out in the marketplace of ideas intellectual democracy at the touch of a keyboard Social media offered a way for conservatives to outflank the leftist groupthink that dominated academia the media and the political establishment But as investigative reporter Peter J Hasson shows in his explosive new book *The Manipulators* that s no longer the case Instead Big Tech companies have become enforcers of intellectual conformity promoting leftist ideas punishing dissent and dictating politically correct opinions Big Tech s grip on the levers of information seems unbreakable Hasson working with sources deep inside the tech giants presents a chilling account of companies that relish their coercive power and aren t shy about using it In *The Manipulators* you ll learn How tech companies skew search results and fact checks in favor of left wing ideas and liberal news sources How Google employees organize anti Trump Resistance on company time and with company resources How Facebook gives special privileges to liberal publications How Big Tech employees collude with liberal journalists and left wing activists to dictate who can and can t have a voice online How Twitter which once touted itself as the free speech wing of the free speech party reinvented itself as a liberal news company How pro abortion extremists work with Big Tech to shut down pro life speech online Big Tech has become the greatest threat to free speech and free thought in America But Big Tech is not invincible It is still vulnerable to conservative and consumer pressure though not for long if Democrats have their way Peter Hasson provides a frightening look at the concentrated power of Big Tech its extraordinary intellectual intolerance and its determination to silence competing voices and even dictate our thoughts *The Manipulators* is a warning about rampant political censorship that will only get worse unless Big Tech meets big opposition

The Four Scott Galloway,2017-11-20 Die vier apokalyptischen Reiter so bezeichnet Marketing Guru Galloway Amazon Apple Facebook und Google Diese Tech Giganten haben nicht nur neue Gesch ftsmodelle entwickelt Sie haben die Regeln des Wirtschaftslebens und die Voraussetzungen f r Erfolg neu definiert In dem respektlosen Stil der Galloway zu einem der gefeiertsten Wirtschaftsprofessoren der Welt gemacht hat zerlegt er die Strategien der Vier Er f hrt vor wie sie unsere grundlegenden emotionalen Bed rfnisse mit einer Schnelligkeit und in einem Ausma manipulieren an die andere nicht herankommen Und er zeigt wie man die Lehren aus ihrem Aufstieg auf sein eigenes Unternehmen oder seinen eigenen Job anwenden kann Ob man mit ihnen konkurrieren will mit ihnen Gesch fte machen oder einfach in der Welt leben will die von ihnen beherrscht wird man muss die Vier verstehen

The Age of the Platform Phil Simon,2015

TECHNOLOGICAL GIANTS: GOOGLE, APPLE, FACEBOOK, AMAZON AND THE DIGITAL REVOLUTION DAVID SANDUA,2023-07-16 Step into the fascinating world of the digital revolution and discover how four tech giants Google Apple Facebook and Amazon have transformed our lives in unimaginable ways From their humble beginnings to their global dominance these companies have redefined the way we interact work and live Have you ever wondered how Google changed advertising forever Or how Amazon became the go to platform for online shopping This book delves into these questions and much more exploring the impact of these giants on various industries and society at large But not all is rosy The digital

revolution has also raised serious ethical and privacy concerns Who is in control of our data How are these giants influencing our perception of reality and our decision making This book not only celebrates the technological advances that have made a more connected world possible but also raises critical questions that we all need to consider in this digital age From the democratization of knowledge to political polarization this book is essential reading for anyone who wants to understand the digital world we live in

World Without Mind Franklin Foer, 2018-09-27 Elegantly tracing the intellectual history of computer science from the Descartes and the enlightenment to Alan Turing to Stuart Brand and the hippie origins of today's Silicon Valley Foer exposes the dark underpinnings of our most idealistic dreams for technology

The People Vs Tech Jamie Bartlett, 2018-04-05 From the bestselling author of The Dark Net comes a book that explains all the dangers of the digital revolution and offers concrete solutions on how we can protect our personal privacy and democracy itself The internet was meant to set us free But have we unwittingly handed too much away to shadowy powers behind a wall of code all manipulated by a handful of Silicon Valley utopians ad men and venture capitalists And in light of recent data breach scandals around companies like Facebook and Cambridge Analytica what does that mean for democracy our delicately balanced system of government that was created long before big data total information and artificial intelligence In this urgent polemic Jamie Bartlett argues that through our unquestioning embrace of big tech the building blocks of democracy are slowly being removed The middle class is being eroded sovereign authority and civil society is weakened and we citizens are losing our critical faculties maybe even our free will The People Vs Tech is an enthralling account of how our fragile political system is being threatened by the digital revolution Bartlett explains that by upholding six key pillars of democracy we can save it before it is too late We need to become active citizens uphold a shared democratic culture protect free elections promote equality safeguard competitive and civic freedoms and trust in a sovereign authority This essential book shows that the stakes couldn't be higher and that unless we radically alter our course democracy will join feudalism supreme monarchies and communism as just another political experiment that quietly disappeared

Tech Giants, Artificial Intelligence, and the Future of Journalism Jason Paul Whittaker, 2020-09-30 This book examines the impact of the Big Five technology companies Apple Alphabet Google Amazon Facebook and Microsoft on journalism and the media industries It looks at the current role of algorithms and artificial intelligence in curating how we consume media and their increasing influence on the production of the news Exploring the changes that the technology industry and automation have made in the past decade to the production distribution and consumption of news globally the book considers what happens to journalism once it is produced and enters the media ecosystems of the internet tech giants and the impact of social media and AI on such things as fake news in the post truth age The audience for this book are students and researchers working in the field of digital media and journalism studies or media studies more generally It will also be useful to those who are looking for extended case studies of the role taken by tech giants such as Facebook and Google in the fake news scandal or the role of

Jeff Bezos in transforming The Washington Post The Open Access version of this book available at <https://doi.org/10.4324/9781351013758> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Tech Panic Robby Soave, 2021-09-28 From award winning journalist and author of the methodical earnest and insightful The Guardian Panic Attack an examination of recent kneejerk calls to regulate Big Tech from both sides of the aisle Not so long ago we embraced social media as a life changing opportunity to connect with friends and family all across the globe Today the pendulum of public opinion is swinging in the opposite direction as Facebook Twitter Google YouTube Instagram TikTok and similar sites are being accused of corrupting our democracy spreading disinformation and fanning the flames of hatred We once marveled at the revolutionary convenience of ordering items online and having them show up on our doorsteps overnight Now we fret about Amazon outsourcing our jobs overseas or building robots to do them for us With insightful analysis and in depth research Robby Soave offers a refreshing dose of sanity and common sense about big tech David French author of Divided We Fall and explores some of the biggest issues animating both the right and the left bias censorship disinformation privacy screen addiction crime and more Far from polemical Tech Panic is grounded in interviews with insiders at companies like Facebook and Twitter as well as expert analysis by both tech boosters and skeptics from Mark Zuckerberg to Josh Hawley You will learn not just about the consequences of Big Tech but also the consequences of altering the ecosystem that allowed tech to get big Offering a fresh and crucial perspective on one of the biggest influences of the 21st century Soave seeks to stand athwart history and yell Wait are we sure we really want to do this

Your Data, Their Billions Jane S. Hoffman, 2022-04-19 THE GUIDE TO USING EVERYDAY TECH FROM GOOGLE SEARCHES AND AMAZON TO GPS AND FACEBOOK WITH EYES WIDE OPEN What if somebody knew everything about you Your relationships work social and private family history finances and medical records even your exact location at any time of the day personal preferences and purchases Somebody does That somebody is Big Tech Facebook Google Amazon Apple and Microsoft know more about you than you do And they make billions of dollars by cashing in on your private data Our personal data which Big Tech companies get for free is the engine that drives the unregulated free for all Wild West world called the digital marketplace These corporate giants may bring us information and entertainment convenience and connection but they also do a lot of harm by threatening our privacy discovering and disseminating our personal information spreading dangerous misinformation from foreign governments and bad actors manipulating our behavior affecting what we see buy even who we vote for So what can we do about it This eye opening book provides vital information that has been out of reach to those who need it most the millions of Facebook Google Amazon Apple and Microsoft users who have come to love and depend upon these digital products Veteran consumer advocate Jane Hoffman makes the complex world of Big Tech simple to grasp as she reveals exactly how Big Tech uses and abuses your personal information And she proposes a bold blueprint for reforming these corporate behemoths including a data dividend Your Data Their Billions is a guidebook to everything at stake in our

digital society from Big Tech's overreach into our daily lives to its practices that threaten our democracy Knowledge is power and it starts here Same End by Different Means Cecilia Rikap, 2023 I analyse US Big Tech strategies to dominate frontier artificial intelligence AI by quantitatively and qualitatively comparing how they manage knowledge in their respective AI corporate innovation system CIS I propose frenemies to describe Microsoft's strategy because many Chinese organizations and even direct competitors integrate its CIS University symbolises Google's strategy given its focus on fundamental AI its central place in the AI research field and appropriation mechanisms that are not translating into clear business advantages Secrecy defines Amazon's strategy maximizing knowledge inflows while minimizing outflows to profit from AI Facebook with the narrowest AI CIS exhibits an application centred strategy

The Top Books of the Year The Tech Lash Against Google Facebook And Amazon Is The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous captivating novels enthraling the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the captivating narratives that have charmed audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens' "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papan, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and suspenseful novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
