Basic Marine Engineering T. K. Grover, 2007-01-01 **Lloyd's Maritime Directory** ,2008 **Microbial and Biotechnological Interventions in Bioremediation and Phytoremediation** Junaid Ahmad Malik, 2022-08-20 The introduction of contaminants due to rapid urbanisation and anthropogenic activities into the environment causes unsteadiness distress to the physico chemical systems including living organisms which possibly is threatening the dynamics of nature as well as the soil biology by producing certain xenobiotics Hence there is an immediate global demand for the diminution of such contaminants and xenobiotics which can otherwise adversely affect the living organisms Some toxic xenobiotics include synthetic organochlorides such as polycyclic aromatic hydrocarbons PAHs and some fractions of crude oil and coal The advancements in microbiology and biotechnology has lead to the launch of microbial biotechnology as a separate area of research and contributed dramatically to the development of the areas like agriculture environment biopharmaceutics fermented foods etc The evolution of new metabolic pathways from natural metabolic cycles has enabled the microorganisms to degrade almost all different complex and resistant xenobiotics found on Earth Hence microbes stand an imperative efficient green and economical alternative to conventional treatment technologies This book comprises chapters dealing with various bioremediation strategies with the help of different groups of microorganisms along with detailed graphical diagrammatical representations It also focuses on the use of microbial biotechnology and highlights the recent developments in microbial biotechnology in the area of agriculture and environment Furthermore it contains a detailed comprehensive account for the microbial treatment technologies from unsustainable to sustainable which includes chapters prepared by professionals several researchers scientists graduate students and postdoctoral fellows across the world with expertise in environmental microbiology biotechnology bioremediation and environmental engineering The research presented also highlights some of the significantly important microbial species involved in remediation the physiology biochemistry and the mechanisms of remediation by various microbes and suggestions for future improvement of bioremediation technology This book would serve as a quick reference book for graduate and postgraduate students pursuing their study in any branch of life sciences microbiology health sciences and environmental biotechnology as well as researchers and scientists working in laboratories and industries involved in research related to microbiology environmental biotechnology and allied researches **Journal of the Institution of Engineers (India)**. ,1968 Applications of Nanotechnology in Plant Disease Management Mohamed Ahmed Mosa, Synan AbuQamar, 2026-02-22 This book explores the rapidly evolving field of nanobiotechnology and its applications in plant health and agricultural sustainability Focusing on nanomaterials and nano sensors the book presents strategies for the detection diagnosis and management of plant diseases foodborne pathogens and agricultural pests Chapters delve into the use of nanodevices for early disease detection nano pesticides for targeted treatment and bio nanosensors for monitoring microbial contaminants in food systems This book

further highlights the role of biogenic and polymeric nanomaterials as effective fertilizers fungicides and protective agents against plant parasitic nematodes and microbial infections This book also addresses critical issues of nanoparticle toxicity and ecological safety providing a balanced view on the risks and benefits of nanotechnology in agriculture This edited volume is designed for graduate students researchers agronomists plant pathologists and nanotechnologists This volume offers practical reference for integrating nanoscience into plant protection systems It also serves as a guide for policymakers and agri tech professionals seeking sustainable high precision solutions for global food security
