The Politics of Dissensus Kari Palonen, José María Rosales, Tapani Turkka, 2014-05-05 The Politics of Dissensus inverts the traditional perspective on the study of parliamentary politics by focusing on its less obvious and less well known aspects Dissensus instead of consensus becomes the condition for the intelligibility of parliamentary politics Such politics is indebted to the rhetorical culture of addressing issues from opposite perspectives and debating the alternatives pro et contra no motion is approved without a thorough examination of and confrontation among imaginable alternatives Establishing the openness of political debating parliamentarism has become a distinctive historical contribution to the rise of parliamentary democracy Parliament in Debate refers to the paradigmatic institution for political deliberation the debates surrounding its legislative activity as well as the supervision of government and administration Parliament has become a fascinating object of scrutiny as a political institution adopted and developed by different political traditions In a nutshell the book retrieves the study of parliamentary politics to present political theory and action in the parliamentary mode It is a book on the relevance of parliamentarism to the study of politics and a book on the comparative conceptual and institutional history of parliamentary politics The Politics of Dissensus Parliament in Debate is the outcome of an international team of contributors coordinated by two ongoing research projects relying on a long lasting international cooperation namely the Academy of Finland project The Politics of Dissensus and the Spanish National Research Fund projects The Rhetorics of Democracy and The Civic Constellation

Machine Art in the Twentieth Century Andreas Broeckmann, 2016-12-23 An investigation of artists engagement with technical systems tracing art historical lineages that connect works of different periods Machine art is neither a movement nor a genre but encompasses diverse ways in which artists engage with technical systems In this book Andreas Broeckmann examines a variety of twentieth and early twenty first century artworks that articulate people s relationships with machines In the course of his investigation Broeckmann traces historical lineages that connect art of different periods looking for continuities that link works from the end of the century to developments in the 1950s and 1960s and to works by avant garde artists in the 1910s and 1920s An art historical perspective he argues might change our views of recent works that seem to be driven by new media technologies but that in fact continue a century old artistic exploration Broeckmann investigates critical aspects of machine aesthetics that characterized machine art until the 1960s and then turns to specific domains of artistic engagement with technology algorithms and machine autonomy looking in particular at the work of the Canadian artist David Rokeby vision and image and the advent of technical imaging and the human body using the work of the Australian artist Stelarc as an entry point to art that couples the machine to the body mechanically or cybernetically Finally Broeckmann argues that systems thinking and ecology have brought about a fundamental shift in the meaning of technology which has brought with it a rethinking of human subjectivity He examines a range of artworks including those by the Japanese artist Seiko Mikami whose work exemplifies the shift

Public Procurement and Aid

Effectiveness Annamaria La Chimia, Peter Trepte, 2019-08-08 This edited collection fills a significant gap in the literature by gathering contributions from the most prominent academics and practitioners of aid and procurement. It explores the economic, political, and legal relationship between procurement and aid effectiveness in developing countries and takes stock of current debates in the field. More specifically, the contributions analyse the failures and successes of current initiatives to foster effectiveness and streamline the aid procurement process and address current themes emerging in the literature related to development procurement and aid success. A pivotal and timely publication, *Public Procurement and Aid Effectiveness* will be of interest to a varied and multicultural international audience and a wide range of actors working on aid effectiveness, development procurement, and good governance initiatives in both donor and beneficiary countries.

L'éducation par la nature : Théories, pratiques, formations, 2024-01-31T00:00:00+01:00 Les démarches dites de pédagogie par la nature, d'éducation par la nature, d'éducation en plein air, de forêt ou encore de classe dehors constituent une nouvelle hydrie éducative mille fois qui interroge la communauté scientifique de par les enjeux épistémologiques éducatifs et formatifs qu'elle sous-tend. Ce sont ces enjeux pluriels que l'ouvrage discute en mettant en regard réflexions didactiques et analyses de pratiques venant d'univers francophones variés et ancrés dans des approches disciplinaires, elles aussi interrogées. L'image même de l'objet de l'ouvrage. L'objectif est d'apporter des exemples de dispositifs d'éducation et de formation dont les fondements, les déroulés et les impacts sont analysés par des chercheurs et des chercheuses. Destinés aux étudiants, aux chercheurs, aux formateurs et aux praticiens, ce plaidoyer nombreuses voix pour une révolution verte de l'éducation se positionne mi-chemin entre héritage et innovation, héritage des grands courants issus des ou adoptés par les sciences de l'éducation et de la formation et de la didactique, nation, interactionnisme, socioconstructivisme, coformation, etc. et innovation de par l'essence même des démarches d'éducation par la nature qui sont portées par des enjeux écolologiques propres à l'époque interrogées par la perte ou la refonte des liens ou connexions entre animaux humains, animaux autres qu'humains, végétaux, concernées par la fragmentation des territoires. En filigrane, des textes présentent ce qui est finalement la dimension auto-socio-co transformative de cette aventure humaine qui est l'acte d'accompagner des jeunes en nature qui sera souligné. **Bastien**
