**Routledge Handbook of Corpus Linguistics** Anne O'Keeffe, Michael McCarthy, 2010-04-05 The Routledge Handbook of Corpus Linguistics provides a timely overview of a dynamic and rapidly growing area with a widely applied methodology. Through the electronic analysis of large bodies of text, corpus linguistics demonstrates and supports linguistic statements and assumptions. In recent years it has seen an ever-widening application in a variety of fields: computational linguistics, discourse analysis, forensic linguistics, pragmatics, and translation studies. Bringing together experts in the key areas of development and change, the handbook is structured around six themes which take the reader through building and designing a corpus to using a corpus to study literature and translation. A comprehensive introduction covers the historical development of the field and its growing influence and application in other areas. Structured around five headings for ease of reference, each contribution includes further reading sections with three to five key texts highlighted and annotated to facilitate further exploration of the topics. The Routledge Handbook of Corpus Linguistics is the ideal resource for advanced undergraduates and postgraduates.

**Cognitive Approaches to English** Mario Brdar, Marija Omazić, Višnja Pavičić Takač, 2009 The present volume contains a selection of papers presented at the conference Cognitive Approaches to English, an international event organized to mark the 30th anniversary of English studies at the Faculty of Philosophy Josip Juraj Strossmayer University Osijek, which was held in Osijek on October 18-19, 2007. The participants were invited to discuss issues in cognitive accounts of English, ranging from fundamental to methodological to interdisciplinary and applied. The volume is accordingly divided into four parts. Part I, Motivation in grammar, deals with various phenomena in the grammar of English in the broadest sense of the term, all of which are shown to be motivated by metaphorical and/or metonymic operations. Part II, Constructing meaning between grammar and lexicon, contains five chapters dealing with phenomena ranging from various peculiarities of form-meaning pairings, such as synonymy, polysemy, and figurative meanings, to concept formation. The four chapters that make up Part III are concerned with the phenomenon of interlinguistic and intercultural variation in the use of metaphorical and metonymic processes. The volume is concluded by Part IV, the three papers of which attempt to reconsider some TEFL issues from a cognitive linguistic point of view.
