For instance, some versions of Windows Media Player allow you to do these at any tempo, and Band In A Box lets you do them at any tempo and in any key. Jazz Eddie S. Meadows, 2013-10-23. *Jazz Research and Pedagogy* is the third edition of an annotated bibliography to books, recordings, videos, and websites in the field of jazz. Since the publication of the 2nd edition in 1995, the quantity and quality of books on jazz research, performance, and teaching materials have increased. Although the 1995 book was the most comprehensive annotated jazz bibliography published to that date, several books on research, performance, and teaching materials were omitted. In addition, given the proliferation of new books in all jazz areas since 1995, the need for a new comprehensive and annotated reference book on jazz is apparent. Multiply indexed, this book will serve as an excellent tool for librarians, researchers, and scholars in sorting through the massive amount of new material that has appeared in the field over the last decade.

At a time when teacher education programs allow only a minimal amount of time for the specialized study of instrumental teaching, a text that not only provides the basics but includes essential details for future reference is essential. This text attempts to meet that need.
