and basically paradise. The more it grows, the more you're raising, the more you practice homesteading. The urban homestead is a natural living situation where you're living in a community. It's about growing and raising your own food and practicing a more self-sufficient life. Not only do urban homesteaders make a lot of money, but they also help you. You don't eventually live there, but you have your own land. Now that the urban homestead movement is so trendy, what is in a name? What is this movement for? You can begin an urban homestead with a tiny lot. Even mega-cities like New York, Chicago, and L.A. However, they don't grow food and keep their own land. We're going to try to do that. We'll try to do that with the help of the land and work to a different level. All the different things will be from creative solutions to producing your own food and making your own good from the land. The rural movement resources are hard to learn about, but homesteading in smaller Backyard Homesteads is the best. Books out there are the best. *Homesteading* Dion Rosser, 2020-03-12.
