Culture, Experience, Care: Re-Centring the Patient Eric Sandberg, Maren Scheurer, 2019-01-04 This volume was first published by Interdisciplinary Press in 2014. Susan Sontag claimed that everyone who is born holds dual citizenship in the kingdom of the well and the kingdom of the sick, and while we all prefer to use only the good passport sooner or later, each of us is obliged at least for a spell to identify ourselves as citizens of that other place. We are all, in other words, past, present, or future patients. This collection examines the many ways in which the idea of the patient can be conceptualized in different cultural, professional, intellectual, and emotional contexts as part of an ongoing multidisciplinary and international attempt by scholars, health care professionals, and indeed patients themselves to rethink and re-examine patienthood and patient care. These chapters attempt to put the patient at the centre, not just although, clearly, not least at the centre of the processes, institutions, and ideologies of medical care, but of a wide range of intellectual and social practices.

Debating Health Care Ethics, Third Edition Doran Smolkin, Patrick Findler, Warren Bourgeois, 2025-04-28 Debating Health Care Ethics Third Edition explores contemporary moral challenges in health care through a unique debate format, providing students with the essential tools to understand and critically evaluate the leading arguments in the field and to develop their own arguments on important moral problems in health care. The first three chapters explore the nature of arguments, philosophical methodology, and a range of leading normative ethical theories.
