It is the only sufficiently comprehensive list of Chinese medical terms to be an ultimate go-to for any translator, student, or clinician. It contains a vast array of general terms, including the 5,000 or more of the Practical Dictionary of Chinese Medicine (Paradigm Publications, 1997). It also contains the 1,500 standard and alternate acupoint names from Grasping the Wind (Paradigm Publications, 1989) and over 10,000 standard and alternate names of medicinals described in the Comprehensive Chinese Materia Medica (Paradigm Publications, 2023), derived from the Zhong Yao Da Ci Dian. The present e-book version offers maximum searchability without the need of indexes. Chinese terms are given in simplified and complex characters so that they can be found by anyone who knows Chinese Pinyin; is given in accented and unaccented form so that users can search by it whether they know the tones or have a system capable of entering tone marks. General terms can be searched by English acupoints by alphanumeric codes, and medicinals can be searched by English and Latin pharmacognostic names. To make for the greatest utility without overly burdening the text, a standard set of graphical indicators are used throughout this and other related e-books. Square brackets indicate elements of terms that can be omitted, such as omissible elements of medicinal names or notes to Chinese and English terms. A double asterisk indicates polysemous medicinal names. A gray sidebar in the left-hand margin indicates a commonly used item. This dictionary has a history of over thirty years of continual expansion and refinement. It began with a database created while writing Fundamentals of Chinese Medicine (Paradigm Publications, 1985). It was published in the form of Glossary of Chinese
