Application / Function

Pressure gaskets are generally used to seal liquid or gas, to the contrary, the utilization of these seals in a factory is often overlooked. These seals are used to prevent leaks of gas or liquid from a machine or a process. They are used in a wide range of applications, from the automotive industry to the power generation industry. The gasket is used to prevent the leakage of gas or liquid from a machine or a process. This is done by creating a seal between the two surfaces.
