Competing in Emerging Markets Hemant Merchant,2008 Given the increasing prominence of Emerging markets a sophisticated understanding of their perils and promises is crucial to the growth of companies including those from within Emerging markets themselves Thus it is surprising that in their quest to train managers only a few academic institutions currently provide a systematic forum to generate a superior understanding of this important economic event This groundbreaking book provides an essential set of readings and case studies that will facilitate a much needed fundamental rethinking about drivers of successful as well as unsuccessful firm conduct in these markets and about the role of sophisticated but usually poorly serving Western theories and ideas regarding competition and competitive traps and successes Although the book is intended primarily for Emerging markets courses it can also be used for various other courses in International management or International strategy It explores the following themes the strategic and operational challenges companies face while competing in these relatively new and therefore generally unfamiliar markets the imperative to generate creative solutions in response to idiosyncratic challenges posed by Emerging markets Competing in Emerging Markets emphasizes both the unique challenges facing corporate managers who operate or intend to operate in Emerging markets and the ways in which managers can efficiently and effectively respond to these competitive challenges As one of the first comprehensive texts on this subject Competing in Emerging Markets is certain to become a standard in the field
