Capitalism at Work Robert L. Bradley, 2014-05-14 Read the Intro Chapter PDF View the Ayn Rand Appendix View an interview with author Robert L Bradley Jr at Reason.com Capitalism took the blame for Enron although the company was anything but a free market enterprise and company architect was hardly a principled capitalist On the contrary Enron was a politically dependent company and in the end a grotesque outcome of

America's mixed economy That is the central finding of Robert L Bradley's *Capitalism at Work* The blame for Enron rests squarely with political capitalism a system in which business firms routinely obtain government intervention to further their own interests at the expense of consumers taxpayers and competitors Although Ken Lay professed allegiance to free markets he was in fact a consummate politician Only by manipulating the levers of government was he able to transform Enron from a 3 billion natural gas company to a 100 billion chimera one that went in a matter of months from seventh place on Fortune's 500 list to bankruptcy But *Capitalism at Work* goes beyond unmasking Enron's sophisticated foray into political capitalism Employing the timeless insights of Adam Smith Samuel Smiles and Ayn Rand among others Bradley shows how fashionable anti capitalist doctrines set the stage for the ultimate business debacle Those errant theories like Enron itself elevated form over substance ignored legitimate criticism and bypassed midcourse correction Political capitali Lewis & Clark Law Review ,2006 **Your Money Or Your Life** Eric Toussaint,2005 In *Your Money or Your Life* Eric Toussaint traces the origins and development of the crisis in global finance Toussaint analyses the role of the World Bank the IMF and the political restrictions they impose examines the Structural Adjustment Programs of the 1990s and reviews the neo liberal policy of globalisation which he argues has now run out of steam He outlines differing experiences of debt drawing on case studies from Argentina Mexico Rwanda Eastern Europe Sub Saharan Africa Latin America and South East Asia to demonstrate the failure of the IMF World Bank models of development Calling for a more humanitarian and egalitarian system of handling Third World debt this is a rigorous reassessment of global finance The Wall Street Journal ,2002 *Fundamentals of Multinational Finance* Michael H. Moffett,Arthur I. Stonehill,David K.
