Danielsson,2016-03-16 Whilst terms such as Lebensraum are commonly associated with National Socialist ideology of the 1930s and 40s ideas of racial living space were in fact generated in the previous decades by an international geographic community of explorers and academics Focusing on one of the most influential figures within this group Sven Hedin this is the first study that systematically connects the geographic community to the intellectual history of the development of National Socialist ideology and genocidal practices The book demonstrates how colonial racial and nationalistic policies were often spearheaded by explorers and geographers such as Hedin In Germany Britain France and Russia their positions as publicly recognized authors and reputable academics made them highly influential with politicians Whilst this influence was to become most visible within Hitler s Germany the debates were not by any means restricted to or even originated in Germany Germany was the home of some of the most prominent geographers but this scientific community had a tradition of international debate and exchange with especially British French and Russian geographic societies and institutions Many issues that were later discussed and championed by National Socialist ideology were aired and debated in this international setting raising important questions about the international character and impact of National Socialism Tracing the intellectual history of the international geographic community and its relationship to National Socialism this study provides an assessment of Hedin s close involvement with the Nazi elite as a culmination of decades of political and scientific work In so doing the book uncovers a long ignored or overlooked important connection between exploration geographers and genocide Explorer's Guide Maine (Sixteenth Edition) (Explorer's Complete) Christina Tree,Nancy English,2012-06-04 Contains up to date information on travel in the state of Maine with recommendations on lodging restaurants regional events family activities entertainment and natural landmarks **Young Explorers: Level 1: Activity Book** ,2012-10-11 Six pages of reinforcement per core unit Gradual reading and writing practice to complement the Class Book Self evaluation with a Learn to learn emphasis Follow up to the cross curricular story and festival lessons **First Explorers: Level 1: Activity Book** Mary Charrington,Charlotte Covill,Paul Shipton,2012-11-22 Seven pages of reinforcement per core unit including a review page Gradual reading and writing practice that matches the Class Book Self evaluation with a Learn to learn emphasis Follow up to the cross curricular story Christmas and Carnival lessons *William Cotton Oswell, Hunter and Explorer* William Edward Oswell,1900 The Explorer ,1961 **Jane's Fighting Ships** Stephen Saunders,2004 Jane s Fighting Ships is your essential reference to the changing capabilities of modern navies their ships aircraft and weapons systems in service and under construction Colour photographs and line
