of improving adhesion and bonding It describes the theories surrounding adhesion of polyolefins and the analysis techniques
which have been used to characterise the material surfaces Methods of enhancing adhesion are then discussed An additional
indexed section containing several hundred abstracts from the Polymer Library gives useful references for further reading
 The Proceedings of International Seminar of Polymer Science and Technology ,1994 *Chemical Characterisation of*
Polyurethanes M. J. Forrest,1999 This review aims to introduce the chemistry of polyurethanes and to examine the different
techniques which may be used to analyse these polymers The characterisation of polyurethane starting materials cure
reaction polymer structures and molecular c099 and additives and their relationship to the final properties of the polymer are
all outlined An additional indexed section containing several hundred abstracts from the Rapra Polymer Library database
gives useful references for further reading **The Rubber Age** ,1975 **Current Serials Received** British Library.
