Introduction To English Linguistics

Annette Becker, Markus Bieswanger

Introduction To English Linguistics:

Introduction to English Linguistics Ingo Plag, Maria Braun, Sabine Lappe, Mareile Schramm, 2009-04-07 This successful textbook introduces beginning university students of English to the study of English linguistics. Now updated and expanded, the second edition features a more detailed discussion of the differences between British and North American English and explains the differences in the two traditions of phonetic transcription. The major difference between this book and its potential competitors lies in its hands-on didactic orientation with a strong focus on linguistic analysis and argumentation. Language and linguistic theory are approached from a strictly empirical perspective: given a certain set of data to be accounted for, theoretical and methodological problems must be solved in order to analyze and understand the data properly. The book is not written in the perspective of a particular theoretical framework and draws on insights from various research traditions. *Introduction to English Linguistics* concentrates on gaining expertise and analytical skills in the traditional core areas of linguistics: i.e. phonology, morphology, syntax, semantics, and pragmatics. The final chapter on Extensions and applications widens the perspective to other areas of linguistic research such as historical, socio- and psycholinguistics. Each chapter is accompanied by exercises and suggestions for further reading. A glossary and an index facilitate access to terms and topics.

Introducing English Linguistics Charles F. Meyer, 2009-05-14 Are you looking for a genuine introduction to the linguistics of English that provides a broad overview of the subject that sustains students' interest and avoids excessive detail? *Introducing English Linguistics* accomplishes this goal in two ways. First, it takes a top-down approach to language, beginning with the largest unit of linguistic structure, the text, and working its way down through successively smaller structures: sentences, words, and finally speech sounds. The advantage of presenting language this way is that students are first given the larger picture; they study language in context and then see how the smaller pieces of language are a consequence of the larger goals of linguistic communication. Second, the book does not contain invented examples, as is the case with most comparable texts, but instead takes its sample materials from the major computerised databases of spoken and written English, giving students a more realistic view of language.

English Linguistics Christian Mair, 2015-10-28 *English Linguistics* is a compact and easy-to-use introduction to English linguistics, which is tailored to the needs of students of English at German, Austrian, and Swiss universities. It contains graded exercises to motivate students to carry out independent research and bridges the gap between linguistics and the literary and cultural studies components of the typical BA in English Studies. *Bachelorwissen English Linguistics* goes beyond the usual introduction by offering accompanying web resources which provide additional material and multi-media illustration.

The History of English Scott Shay, 2007-12-03 *The History of English: A Linguistic Introduction* is for anyone interested in the history of the English language. While leading the reader through the pre-history of English through Germanic times, Old English, Middle English, Early Modern English, and Modern English, the book also introduces the reader to concepts in theoretical and historical

linguistics It includes authentic texts from each period of the language from Beowulf to the King James Bible This book is a great introduction to the field of linguistics for anyone interested in language **English Words** Heidi Harley,2017-11-01 English Words is a comprehensive and accessible introduction to the study of English words from a theoretically informed linguistic perspective accessibly written to give students a command of basic theory skills in analyzing English words and the foundation needed for more advanced study in linguistic theory or lexicology covers basic introductory material and investigates the structure of English vocabulary introduces students to the technical study of words from relevant areas of linguistics phonology morphology syntax semantics historical linguistics and psycholinguistics **Linguistics and English Literature** H. D. Adamson,2019-04-04 This undergraduate textbook introduces English literature students to the application of linguistics to literary analysis *Introduction to English Linguistics* Ingo Plag,2007 The book introduces beginning university students of English to the study of English linguistics The major difference between this book and its potential competitors lies in its hands on didactic orientation with a strong focus on linguistic analysis and argumentation Language and linguistic theory are approached from a strictly empirical perspective given a certain set of data to be accounted for certain theoretical and methodological problems must be solved in order to analyze and understand the data properly Thus the theoretical apparatus is crucially developed in conversation with the data and not presented as a set of given facts After having worked with the book the students should be able to use necessary methodological tools to obtain relevant data such as corpora dictionaries experiments and to systematically analyze their data and relate their findings to theoretical problems The book is not written from the perspective of a particular theoretical framework and draws on insights from various research traditions *Introduction to English Linguistics* concentrates on gaining expertise and analytical skills in the traditional core areas of linguistics i e phonology morphology syntax semantics and pragmatics The final chapter on Extensions and applications widens the perspective to other areas of linguistic research such as historical socio and psycholinguistics Exercises and a glossary are also provided **Introduction to English Linguistics** Ingo Plag, Maria Braun, Sabine Lappe, Mareile Schramm,2007 The book introduces beginning university students to the study of English linguistics with a strong focus on linguistic analysis and argumentation Students are familiarized with the necessary methodological tools to obtain relevant data e g corpora dictionaries experiments and learn to systematically analyze their data and to relate their findings to theoretical problems *Introduction to English Linguistics* concentrates on gaining expertise and analytical skills in the core areas of linguistics phonology morphology syntax semantics and pragmatics The final chapter on Extensions and applications widens the perspective to other areas of linguistic research such as historical socio and psycholinguistics Key features covers the core areas of structural linguistics and some applications hands on approach to linguistic problems and analysis highly accessible through a strongly didactic reader friendly orientation *Introduction to English Linguistics* Annette Becker, Markus Bieswanger,2006 *The Structure of Modern English* Laurel J. Brinton,2000

This text is designed for undergraduate and graduate students interested in contemporary English especially those whose primary area of interest is English as a second language Focus is placed exclusively on English data providing an empirical explication of the structure of the language

An Introduction to English Language Koenraad Kuiper, W. Scott Allan, 2010-08-15 How does the English language work If you are interested in discovering the answer to this question then *An Introduction to English Language* is the ideal place to start Written in a clear lively and easy to follow style this introductory textbook is based around three core topics of linguistic study WORD English words how they fit into sentences their internal structure their meaning and how they make up vocabularies for various purposes SOUND the sound systems of English its phonetics and phonology and English intonation and stress patterns SENTENCE English sentence structure and introductory English grammar Packed with classroom tested examples and graded exercises the third edition of this popular book features a multimedia companion website containing Powerpoint slides mini lectures quizzes and downloadable audio files to aid study new material on language variation and change including more examples of regional dialects and extra material on New Englishes a new introduction to linguistics as a subject familiarizing students with key issues and topics Carefully designed as a course book for either group or individual study *An Introduction to English Language* remains an essential text for students and teachers of English language and introductory linguistics

An Introduction to Language and Linguistics Ralph W. Fasold, Jeff Connor-Linton, 2014-09-04 This work offers an introduction to the traditional topics of structural linguistics theories of sound form meaning and language change and also provides coverage of contextual linguistics including chapters on discourse dialect variation language and culture and the politics of language

English Around the World Edgar W. Schneider, 2010-12-20 The global spread of English has had widespread linguistic social and cultural implications affecting the lives of millions of people around the world This textbook provides a lively and accessible introduction to world Englishes describing varieties used in places as broad ranging as America Jamaica Australia Africa and Asia and setting them within their historical and social contexts Students are guided through the material with chapter previews and summaries maps timelines lists of key terms discussion questions and exercises and a comprehensive glossary helping them to understand analyse and compare different varieties of English and apply descriptive terminology The book is accompanied by a useful web site containing textual and audio examples of the varieties introduced in the text and links to related sources of interest Providing essential knowledge and skills for those embarking on the study of world Englishes this is set to become the leading introduction to the subject

English Linguistics Christian Mair, 2022-03-07 bachelor wissen English Linguistics is a compact and easy to use introduction to English linguistics which is tailored to the needs of students of English at German Austrian and Swiss universities contains graded exercises to motivate students to carry out independent research and bridges the gap between linguistics and the literary and cultural studies components of the typical BA in English Studies Bachelor wissen English Linguistics goes beyond the usual introduction in offering accompanying web

resources which provide additional material and multi media illustration The new edition includes current theoretical approaches in the fields of sociolinguistics and World Englishes

How English Works: A Linguistic Introduction Anne Curzan, Michael P. Adams, 2013-08-29 This accessible introduction to the structure of English general theories in linguistics and important issues in sociolinguistics is the first text written specifically for English and Education majors This engaging introductory language linguistics textbook provides more extensive coverage of issues of particular interest to English majors and future English instructors It invites all students to connect academic linguistics to the everyday use of the English language around them The book s approach taps students natural curiosity about the English language Through exercises and discussion questions about ongoing changes in English How English Works asks students to become active participants in the construction of linguistic knowledge

Understanding English Grammar Thomas E. Payne, 2011 Unlike other textbooks it helps students to understand grammar rather than see it as a set of facts and rules

Introducing English Language Louise Mullany, Peter Stockwell, 2015-07-30 Routledge English Language Introductions cover core areas of language study and are one stop resources for students Assuming no prior knowledge books in the series offer an accessible overview of the subject with activities study questions sample analyses commentaries and key readings all in the same volume The innovative and flexible two dimensional structure is built around four sections introduction development exploration and extension which offer self contained stages for study Each topic can also be read across these sections enabling the reader to build gradually on the knowledge gained Introducing English Language is the foundational book in the Routledge English Language Introductions series providing an accessible introduction to the English language contains newly expanded coverage of morphology updated and revised exercises and an extended Further Reading section comprehensively covers key disciplines of linguistics such as historical linguistics sociolinguistics and psycholinguistics as well as core areas in language study including acquisition standardisation and the globalisation of English uses a wide variety of real texts and images from around the world including a Monty Python sketch excerpts from novels such as Virginia Woolf s To the Lighthouse and news items from Metro and the BBC provides updated classic readings by the key names in the discipline including Guy Cook Andy Kirkpatrick and Zolt n D rnyei is accompanied by a website with extra activities project ideas for each unit suggestions for further reading links to essential English language resources and course templates for lecturers Written by two experienced teachers and authors this accessible textbook is an essential resource for all students of the English language and linguistics

An Introduction to Language Victoria Fromkin, Robert Rodman, 1993

Linguistics for Everyone: An Introduction Kristin Denham, Anne Lobeck, 2009-03-06 LINGUISTICS FOR EVERYONE AN INTRODUCTION First Edition is designed to capture the interest of all students regardless of major and offer them a thorough engaging introduction to the science of language To achieve this goal they devised a unique arrangement of chapters that distinguishes this book from conventional introductory linguistics textbooks Without sacrificing rigor they focus

on larger themes rather than on technical details or formal analysis The book opens with a strong introductory chapter addressing basics such as how to define language prescriptive versus descriptive grammar differences between the human language system and other animal communication systems and so on The second chapter devoted to language mind and brain addresses both psycholinguistic and neurolinguistic evidence for humans innate capacity for language To address core linguistics areas in depth there are two chapters each on phonetics and phonology morphology syntax and semantics Throughout the text special features relate the study of linguistics to the language we use in the real world and every chapter includes innovative and varied activities that review and practice the content and offer your students many opportunities to apply the knowledge in their own lives Important Notice Media content referenced within the product description or the product text may not be available in the ebook version

[The English Language](#) Charles Laurence Barber, 2000-05-04 The English Language A Historical Introduction covers the history of the English language from its prehistoric Indo European origins to the present day Assuming no previous knowledge of the subject Charles Barber describes the nature of language and language change and presents a history of the English language at different periods dealing with key topics such as grammar pronunciation and semantics Where necessary he introduces and explains the main theoretical and technical concepts of historical linguistics There are also chapters on English in the scientific age English as a world language and the future of the language Charles Barber uses dozens of familiar texts including the English of King Alfred Chaucer Shakespeare and Addison to illustrate the state of the English language through time in a range of contexts This is a fascinating book for anyone with an interest in language
