*Prophets and Protons* Benjamin E. Zeller, 2010-03-29 By the twentieth century science had become so important that religious traditions had to respond to it Emerging religions still led by a living founder to guide them responded with a clarity and focus that illuminates other larger more established religions understandings of science The Hare Krishnas the Unification Church and Heaven s Gate each found distinct ways to incorporate major findings of modern American science understanding it as central to their wider theological and social agendas In tracing the development of these new religious movements viewpoints on science during each movement s founding period we can discern how their views on science were crafted over time These NRMs shed light on how religious groups new old alternative or mainstream could respond to the tremendous growth of power and prestige of science in late twentieth century America In this engrossing book Zeller carefully shows that religious groups had several methods of creatively responding to science and that the often assumed conflict based model of science vs religion must be replaced by a more nuanced understanding of how religions operate in our modern scientific world *Global Aid* 97-98 , 1998 [Practicable Learning Analytics](#) Olga Viberg, Åke Grönlund, 2023-03-30 This book is about practicable learning analytics that is able to become a successful part of practice ultimately leading to improved learning and teaching The aim of the book is to shift our perspective on learning analytics creation and implementation from that of designing of technology to that of designing for a system of practice That is any successful implementation of learning analytics requires a systematic approach which the book explains through the lens of the Information Systems Artefact constituting of the three interdependent artefacts technical information and social The contributions of this book go beyond a consideration of particular humans such as teachers and

students and their individual activities to consider the larger systems of activity of which analytics become part of The chapters included in this book present different cases of learning analytics implementation across countries and the related opportunities and challenges related to generalizability of the results The book is written for designers students and educators of learning analytics who aim to improve learning and teaching through learning analytics *Doctoral Education in Design* Richard Buchanan,1999 Multispecies Information Science Niloofar Solhjo,2026-01-23 Multispecies Information Science offers a comprehensive overview of this subfield shifting the focus beyond humans to explore the rich and complex realms of information and knowledge shared with animals plants microbes technologies and landscapes Bridging theory and practice this volume traces the evolution of multispecies movement in information science from Suzanne Briet s provocative question Is an antelope a document to inclusive approaches informed by posthumanism queer studies disability studies and postcolonialism Penned by information scientists from around the world the chapters span topics from the foundations of information to its pedagogy design technology and services Their ideas will help readers to discover fresh and compassionate avenues of participation and engagement with other species in their own information practices and research By embracing a multispecies approach this book aims to transform readers understanding of information and life recognising that this perspective is fundamentally an ethical turn Multispecies Information Science integrates insights from areas such as documentation information behaviour indigenous knowledge and information technology It facilitates dialogue between information scientists who are interested in a multispecies perspective This book is essential reading for researchers practitioners and students in Library and Information Science It also speaks to those in anthropology environmental humanities animal computer interaction and human animal studies **The Asia-Pacific Biotech Directory** ,2003 **Native Australian Plants** Krystyna A. Johnson,Margaret Burchett,1996 **Wild Life** Irus Braverman,2015-04-22 Wild Life documents a nuanced understanding of the wild versus captive divide in species conservation It also documents the emerging understanding that all forms of wild nature both in situ on site and ex situ in captivity may need to be managed in perpetuity Providing a unique window into the high stakes world of nature conservation Irus Braverman describes the heroic efforts by conservationists to save wild life Yet in the shadows of such dedication and persistence in saving the life of species Wild Life also finds sacrifice and death Such life and death stories outline the modern struggle to define what conservation should look like at a time when the long established definitions of nature have collapsed Wild Life begins with the plight of a tiny endangered snail and ends with the rehabilitation of an entire island Interwoven between its pages are stories about golden lion tamarins in Brazil black footed ferrets in the American Plains Sumatran rhinos in Indonesia Tasmanian devils in Australia and many more creatures both human and nonhuman Braverman draws on interviews with more than one hundred and twenty conservation biologists zoologists zoo professionals government officials and wildlife managers to explore the various perspectives on in situ and ex situ conservation and the blurring of the lines between them **Anticancer**
