**Finding Reliable Information Online** Leslie F. Stebbins, 2015-09-16 We live in an information saturated environment and spend far too much time searching surfing skimming contributing and organizing the information in our lives We spend too little time immersing ourselves in reliable high quality information We are often so buried in information and strapped for time that we grab information like it was fast food without bothering to evaluate its quality Finding Reliable Information Online Adventures of an Information Sleuth uses stories or information adventures to illustrate the best approaches to searching for information and to help us develop our aptitude for locating high quality resources in a rapidly changing digital environment that is becoming proficient at monopolizing our attention with useless or unreliable information This book is about taking charge of the search process and not handing over the reins to search engines like Google Bing or Yahoo to dictate what information we consume Each chapter focuses on a quest for different types of information while digging deeper into the complexities of finding credible places to look for information and ways to think about evaluating it As the Internet evolves and becomes more sophisticated our strategies for finding and evaluating information need to evolve as well The stories in this book range from investigating challenging research questions to exploring health issues and everyday life questions like finding a reliable restaurant or product review These chapters go beyond the simple and more mechanical checklist approach to evaluating information though these factors are also discussed [A Cultural History of Comedy in the Modern Age](#) Louise Peacock, 2021-12-30 Drawing together contributions by scholars from a variety of fields including theater film and television sociology and visual culture this volume explores the range and diversity of comedic performance and comic forms in the modern age It covers a range of forms and examples from 1920 to the present day including plays film television comedy live comedy and comedy on social media It argues that the period covered was marked by an explosion of comic forms and a flowering of comic creativity across a range of media From the communal watching of silent films at the start of the period to the use of Twitter and other online platforms to share and comment on comedy technology has brought about significant changes in its form consumption and social effects As comic forms have shifted and developed so too have attitudes to what comedy can and cannot do This study considers its role in entertainment and in provoking consideration of a range of social and political topics Each chapter takes a different theme as its focus form theory praxis identities the body politics and power laughter and ethics These eight different approaches to comedy add up to an extensive synoptic coverage of the subject

**Snacks** Janis Thiessen, 2017-09-08 Snacks is a history of Canadian snack foods of the independent producers and workers who make them and of the consumers who can't put them down Janis Thiessen profiles several iconic Canadian snack food companies including Old Dutch Potato Chips Hawkins Cheezies and chocolate maker Ganong These companies have developed in distinctive ways reflecting the unique stories of their founders and their intense connection to specific locations These stories of salty or sweet confections also reveal a history that is at odds with popular notions of junk

food Through extensive oral history and archival research Thiessen uncovers the roots of our deep loyalties to different snack foods what it means to be an independent snack food producer and the often quirky ways snacks have been created and marketed Clearly written extensively illustrated and lavish with detail about some of Canadians favorite snacks this is a lively and entertaining look at food and labour history **College Sports Ethics** Shawn E.
