Placidus Table Of Houses:

AFA Tables of Houses Astro Numeric Service, American Federation of Astrologers, 1977 This compilation of house cusps is an authoritative reference for the accurate division of the zodiac into twelve houses Designed to meet the most demanding needs of astrologers and those doing astrological research the tables cover the range of latitudes from 0 to 66 degrees and list all cusps to one tenth of a minute of arc The tables list the cusps at even four minute intervals of sidereal time making linear interpolation practical and straightforward There are 360 separate tables of house cusps with each showing the house cusps for latitudes 0 to 66 degrees at a single value of sidereal time At the top of each table the sidereal time is printed in hours minutes and seconds on the left and in degrees minutes and seconds on the right Since the Midheaven remains the same for all latitudes it is printed once at the top of the page and because of its importance is listed to a precision of one second of arc The general rule for finding southern latitude cusps is to add twelve hours to the sidereal time look up the cusps as if the latitude were north and then reverse the zodiacal sign of all the cusps found This process is made easier in this volume through the use of separate headings for southern latitudes at the bottom of each table Instead of adding twelve hours to the sidereal time use the sidereal time headings at the bottom of the page when locating the proper table This gives the same table that would be found by adding the twelve hours and using the northern latitude headings It is usually necessary to interpolate to find cusps for an exact time or latitude that falls between two listings in the tables Interpolation is the process of finding a small correction to be added or subtracted from a cusp in the tables to compensate for the difference between the value of the cusp at the listed sidereal time or latitude and the value of the cusp at the actual sidereal time or latitude Generally speaking interpolation must be done twice for each cusp a correction for the sidereal time and another for the latitude The Midheaven need only be corrected for sidereal time since it remains the same at all latitudes It is no surprise that the difficulty of interpolation depends upon the accuracy required Included in this book are explicit instructions for three techniques for finding the house cusps each of which gives successively more accurate results All tables needed for all three techniques are included in the book

The American Book of Tables Neil F. Michelsen, 1984 The American Book of Tables contains a complete set of instructions on how to erect a natal horoscope It has a number of time saving and accuracy enhancing tables to assist the users calculations

The Perfect Horoscope John Willner, 2001-03-20 The majority of horoscopes in current use are terribly wrong Why Because spiritual birth times which are essential to producing an accurate horoscope according to Edgar Cayce occur up to four and a half hours before physical birth That difference leaves aspects between planets about the same but shifts all house cusps backward by up to one or two

signs Compared with most of today's faulty horoscopes these perfect horoscopes match personas with awesome precision and provide greatly enhanced forecasting capabilities This revolutionary book on astrology shows you how to 1 arrive at spiritual birth times 2 apply two other fundamentals of astrology currently omitted from most horoscopes and 3 verify your now totally functional horoscope Topics covered in this book include Who in recorded history may have been responsible for the mistakes of astrology and its subsequent fall from grace o How to calculate accurate soul chosen horoscopes What steps can be taken to verify a soul chosen horoscope Why progressions not transits mark the stepping stones of life When horoscopes can be used to confirm fundamentals and reject damaging false ideas such as the first breath theory Which concepts will change as we move from the Piscean Age of tolerant opinions to the Aquarian Age of benevolent intelligence
