Case studies

We're all interested in what makes people tick, how they think, act and interact with others. That's why studying undergraduate Psychology – the science of human behaviour – is interesting in its own right.

Studying a degree in Psychology will enable you to develop a wide range of sought after transferable skills. The knowledge and skills gained allows you to take advantage of a variety of job opportunities in areas such as education, human resources, commercial industry, management, advertising and marketing, research, the health professions, counselling and social services. (Some of these require further professional and/or specialised training). Here are some case studies from OU Psychology graduates which demonstrates the value of OU study, both in enabling a career change and the opportunity to become a professional psychologist.

It was the year 2000 when I very proudly received my Open University BSc (Hons) Psych at the Birmingham Symphony Hall. This was the springboard into the career that I really wanted and led me into an MSc and Post Masters qualification for Chartership, working as an Associate Psychologist and researcher with a local university before setting up a private practice. It is now five years since I provided my case study for the OU, how the time really does fly. Throughout my studies and professional practice, my deep regard for the OU and pride at having been a part of such an academy has never waned. Indeed, I believe that in the current climate the OU is needed more than ever.

My private practice: MY Counselling & Psychology Services has been running for 8 years now. A strong network of providers and colleagues has developed during this time, which helps greatly in terms of support and practically in coping with the waiting list that I have to manage. I have been involved with bringing together a group of professional, highly trained and experienced mind and body therapists at a holistic centre in Essex and this has become a thriving and busy community.

In 2010 I decided to undertake a Professional Doctorate in which I am exploring the cultivation and integration of self-compassion into personal and professional practice. One of my supervisors recently reminded me about the work of Mead and I found myself diving into my OU course books – which I won't part with – it was a happy reunion.

I have also trained as a teacher in Mindfulness Based Stress Reduction and Mindful Self-compassion, which has deeply enriched how I work and what I can offer to my clients. My work and continuing education has taken me all over the UK, Europe and in November 2014 to Boston in the US to present the initial stages of my Doctoral research.

Self-care is central to being able to do my job and keeping well and so I make sure that this

Case Studies in Abnormal

Psychology Thomas F. Oltmanns, John M. Neale, Gerald C. Davison, 1999 Connect the Theory to Real Human Stories Case Studies in Abnormal Psychology takes mental disorders from the realm of theory into the complex reality of human lives In all you ll find 22 in depth cases that focus on symptoms the client s history treatment and the outcome These cases illustrate a variety of problems including mood disorders anxiety disorders schizophrenia personality disorders and various disorders of childhood and aging They also allow students to see how theories in the field can be applied to real life problems Case Studies in Abnormal Psychology 5 e Provides detailed descriptions and examples of a range of clinical problems Illustrates the many ways in which these problems can be viewed and treated Discusses the evidence concerning epidemiology etiology and treatment of the disorders in question Includes 10 to 15 year follow ups for some patients describing their response to treatment and long term social adjustment Features a completely new case of bulimia nervosa treated by cognitive behavior therapy in group format How the Case Studies are Structured Each case is presented in depth with a full chapter devoted to each patient Many cases include excerpts of dialog from therapy interviews Each case is compared with DSM IV diagnostic criteria for relevant disorders Some treatment failures are presented as well as successes New discussions are provided concerning gender related issues such as the impact of rape and sexual abuse as well as relational distress and depression All cases end with a discussion of etiology and treatment that illustrates the application of research to individual clients
