*Handbook of Neurosociology* David D. Franks, Jonathan H. Turner, 2012-07-09 Until recently a handbook on neurosociology would have been viewed with skepticism by sociologists who have long been protective of their disciplinary domain against perceived encroachment by biology But a number of developments in the last decade or so have made sociologists more receptive to biological factors in sociology and social psychology Much of this has been encouraged by the coeditors of this volume David Franks and Jonathan Turner This new interest has been increased by the explosion of research in neuroscience on brain functioning and brain environment interaction via new MRI technologies with implications for social and psychological functioning This handbook emphasizes the integration of perspectives within sociology as well as between fields in social neuroscience For example Franks represents a social constructionist position following from G H Mead's voluntaristic theory of the act while Turner is more social structural and positivistic Furthermore this handbook not only contains contributions from sociologists but leading figures from the psychological perspective of social neuroscience

**Ethnic Studies Research** Timothy P. Fong, 2008-05-02 Study of ethnic groups and race relations have always

existed in the academy primarily in the areas of sociology and anthropology. However, grassroots movements for ethnic studies programs and departments came about with very different agendas for the study of these groups. It is surprising then that relatively few books devoted to these methods exist to document and promote this innovation among succeeding generations of graduate students as well as current academics and professional practitioners. Ethnic Studies Research synthesizes and benchmarks ethnic studies methodologies as interdisciplinary modes of inquiry, providing state-of-the-art summary chapters on key methods and issues, extensive bibliographies, and promising new directions for the future. **The Psychology of Prejudice and Discrimination** Jean Lau Chin, **Book Review Index**, 2006. Every 3rd issue is a quarterly cumulation. Subject Guide to Books in Print, 1993. The Psychology of Prejudice and Discrimination Jean Lau Chin, 2010. An updated and condensed version of the landmark work on the psychological impact of prejudice and discrimination. Spanning four volumes, the first edition of *The Psychology of Prejudice and Discrimination* provided a much-needed cornerstone work on one of the most crucial issues in the United States today. This updated and condensed edition of the award-winning set is a streamlined yet rich and insightful look at the mechanisms of prejudice and discrimination in practice. Editor Jean Chin and contributors from across the nation offer insight into how discrimination in American society is rationalized and enacted, as well as how it is experienced by diverse groups. Coverage goes beyond racism to include sexism and the plight of LGBTQ youths, as well as people with disabilities. Updates include a new introduction and conclusion presenting developments, successes, and failures in fighting prejudice and discrimination since the original set was published.
