Recent Trends In Renewable Energy Sources In India:

Recent Trends in Renewable Energy Sources and Power Conversion R. Seyezhai, S. Karuppuchamy, L. Ashok Kumar, 2021-07-02 This book presents selected papers from the International Conference on Renewable Energy Systems ICRES 2020 It throws light over the state of the art of renewable energy sources and their technological advances Renewable energy sources discussed in this book include solar wind biomass fuel cells hydropower hydrogen nuclear and geothermal This book comprehensively explains each of these sources materials associated technological development economics and their impact on the environment As the renewable energy sources are intermittent they require specific power electronic converter to convert the generated power into useful form that can be used for utility Hence this book describes different forms of power converter such as AC DC DC DC AC and AC AC Advanced power semiconductor devices their gate drive and protection circuits heat sink design and magnetic components for power converter are the additional topics included in this book The topics covered in these proceedings will have a large impact among academicians researchers policy makers scientists practitioners and students in fields of electronics and electrical engineering energy engineering automotive engineering and so on

Recent Trends in off shore Engineering Prof. MSP. Raju, *Proceedings of International Conference on Recent Trends in Computing* Rajendra Prasad Mahapatra, Sateesh K. Peddoju, Sudip Roy, Pritee Parwekar, 2024-07-25 This book is a collection of high quality peer reviewed research papers presented at International Conference on Recent Trends in Computing ICRTC 2023 held at SRM Institute of Science and Technology Ghaziabad Delhi India during June 2 3 2023 The book discusses a wide variety of industrial engineering and scientific applications of the emerging techniques The book presents original works from researchers from academic and industry in the field of networking security big data and the Internet of things

Recent Trends in Material Processing, Characterization and Applications Anil Kumar Singla, Amandeep Singh Shahi, Sanjeev Katoch, 2025-08-28 This book presents select proceedings of the Advanced and Emerging Materials for Technological Applications AEMTA 2024 and covers topics in engineering material their processing properties and applications The topics covered include modeling and simulation of mechanical systems mechanical design additive manufacturing advance manufacturing processes material processing surface engineering and performance of engineering structure The book is a valuable reference for researchers and professionals interested in mechanical engineering materials design and advanced manufacturing process

Recent Trends in Materials Science and Applications Jeyasingh Ebenezer, 2017-05-04 This book gathers the proceedings of the plenary sessions invited lectures and papers presented at the International Conference on Recent Trends in Materials Science and Applications ICRTMSA 2016 It also features revealing presentations on various aspects of Materials Science such as nanomaterials photonic crystal fibers quantum dots thin film techniques crystal growth spectroscopic procedures fabrication and characterisation of new materials compounds with enhanced features and potential applications in nonlinear optical and electro optic devices solar cell device
