Handbook of Research on Decision-Making Techniques in Financial Marketing Dinçer, Hasan, Yüksel, Serhat, 2019-12-27

Consumer needs and demands are constantly changing. Because of this, marketing science and finance have their own concepts and theoretical backgrounds for evaluating consumer-related challenges. However, examining the function of finance with a marketing discipline can help to better understand internal management processes and compete in today's market. The *Handbook of Research on Decision Making Techniques in Financial Marketing* is a collection of innovative research that integrates financial and marketing functions to make better sense of the workplace environment and business-related challenges. Different financial challenges are taken into consideration, while many of them are based on marketing theories such as agency theory, product life cycle, and optimal consumer experience. While highlighting topics including behavioral financing, corporate ethics, and Islamic banking, this book is ideally designed for financiers, marketers, financial analysts, marketing strategists, researchers, policymakers, government officials, academicians, students, and industry professionals.

Theory and Practice of Leadership Roger Gill, 2011-12-15. Praise for the first edition: At last, a well-written, balanced, and insightful British book on leadership. It is probable that every theory and assertion of consequence is commented upon. A real tour de force. Emeritus Professor Gerry Randell, University of Bradford School of Management. *Theory and Practice of Leadership* is an all-encompassing global review of examples and case studies that is both comprehensive and easily adaptable to almost any situation one would encounter in leading people. Richard J. Conwell, Nova Southeastern University. *Journal of Applied Management and Entrepreneurship*. If you are looking for a more holistic and critical take on the field of leadership, look no further. The second edition of this engaging and highly respected text offers an exploration of leadership in a variety of contexts, both profit-oriented and non-profit. New to this edition: Refined to capture and delineate the essential theories more clearly with broader coverage, taking in the latest developments in areas such as change politics, assessment, and development of leadership and multiple intelligences. Further development of a new integrative model of core leadership themes and practices. Abundant examples and illustrations together with detailed explanations of how they apply in practice. A companion website with an Instructor's Manual, PowerPoint slides, links to additional case studies, and full-text journal articles. *Theory and Practice of Leadership* will prove a highly stimulating read for undergraduate and postgraduate students of leadership and related subjects, as well as management consultants and practising managers. **Security Analysis and**

Management 27 entries in the bibliography language English abstract After five years of vast losses especially for the IATA Carrier which are all scheduled airlines 2007 will be a successful year for the airline industry with a forecasted profit of 8.5 billion The early 21st century marked the industry with high losses and consolidation Due to the reason that the industry sector highly depends on the external environment the terrorist attacks of September 11th 2001 magnified by the weak economic conditions in many major countries and more recently the Iraq War and SARS epidemic have made the last five years unhappy ones especially for most of the scheduled airlines In addition to that the liberalisation of the European aviation market enabled low cost airlines to reshape the competitive environment and to make significant impacts in the world's domestic passenger markets which have previously been largely controlled by full service carriers The overall market situation is dominated by increasing pressure on cost and productiveness The global market trend forces a high company concentration that strengthens market positions Lufthansa Germany's national carrier was faced like all other national carriers with the above mentioned problems and had to find its way out of the crisis The central question of this report is With which tools did Lufthansa solve these problems And are these tools sufficient to be competitive for future developments This report paper is dealing with the developments in airline business illustrated with the example of Germany's national carrier the Lufthansa AG and the enormous company restructuring toward an ideal global player in a highly competitive environment By analysing the internal and external influences p *An Electric Vehicle Conversion Start-Up. Development of a Business Model Approach* Fabian Hoefl, 2019-10-24 Master's Thesis from the year 2019 in the subject Business economics Business Management Corporate Governance grade 1.3 Niederrhein University of Applied Sciences Krefeld School of Business and Economics language English abstract Today's world of mobility is characterised by a high degree of dynamism and change is becoming apparent Currently around 45 million passenger cars with conventional combustion engines powered by diesel or petrol are registered in Germany The share of electric vehicles is still well below one per cent Nevertheless the voices for sustainable and environmentally friendly transport are becoming louder One political measure in this respect is the implementation of driving bans in major German cities for some conventional combustion cars Car electrification is a solution for converting cars with conventional combustion engines to electric drives In the context of this thesis car electrification is regarded as a transition solution towards a nationwide electrified transport network of new electric cars A comprehensive concept of a business model approach from a start-up perspective has been developed based on the analysis of the environment industry and customer needs Analysing the structure of the electrical conversion industry revealed that the subject of car electrification is hardly widespread and that current suppliers have only converted a smaller number of cars Besides the small scale of implementation the operational execution by existing suppliers can be considered weak in terms of competitiveness and sustainability The analysis of the needs of potential customers of car electrification using qualitative and quantitative methods has led to incredibly valuable insights for the development of the business model

approach A high openness to purchase was expressed considering some of the factors mentioned such as a test drive with an electrified car before purchase and a durability guarantee of the conversion The high relevance of initial acquisition costs compared to operating expenses in the purchase decision for passenger cars is another precious insight The business model approach developed based on the findings obtained differs fundamentally from the strategies of today s providers By incorporating the existing infrastructure of workshops and service points proximity to the end customer and scalability of the business operation can be achieved Partnering with universities and industry are two critical elements in the development of a sustainable secure and user friendly technical solution **International Business** Shad Morris,James
