Psle Mathematics Moe:

Mathematics Curriculum in Pacific Rim Countries- China, Japan, Korea, and Singapore Proceedings of a Conference Zalman Usiskin, Edwin Willmore, 2008-09-12 This volume presents proceedings from the First International Curriculum Conference by the CSMC It features high quality papers from China Japan Korea and Singapore on their centralized mathematics curricula and differentiated education for students around Grade 10 or 11 Each paper includes an author biography for context

[International Perspectives on Language and Work](#) Stéphanie Cassilde, Adeline Gilson, 2025-07-02 This volume expands the definitions of language and work in researching their mutual influences It considers language as a working tool a vector of occupational identity and so on and work as the needed daily interrelation tasks communication constraints and so on The volume covers various national contexts India France Argentina Morocco Portugal Palestine Brazil Singapore and Canada The diversity of countries and linguistic spaces presented here enriches the perspectives in terms of transferring the insights from one situation to another The specific cases discuss among others how an occupation may be structured by language use how language embeds occupations within certain social contexts challenges of teaching in multilingual classrooms and how language affects therapeutic discourse and communication between patients and doctors The chapters provide detailed contexts and backgrounds so that readers can enjoy entering into each context and seeing similarities and differences with their own research field to incorporate the findings into their own research This volume is intended for sociologists interested in professionalisation industrial and occupational sociology sociology of work public health and management research

[Comparing High-Performing Education Systems](#) Charlene Tan, 2018-09-03 *Comparing High Performing Education Systems* provides original insights into the educational structures ideologies policies and practices in Singapore Shanghai and Hong Kong Taking as its basis their global reputation and consistently strong performance in formal assessments the author provides an in depth analysis and comparison of these three education systems that draws on cutting edge research Chapters explore the dominant cultural and educational norms in Singapore Shanghai and Hong Kong to give a wider picture of these high performing education systems The performance of students in international large scale assessments such as Programme for International Student Assessment PISA Trends in International Mathematics and Science Study TIMSS and Progress in International Reading Literacy Study PIRLS is considered alongside an exploration of attitudes to schooling tutoring and assessment The book shows how Singapore Shanghai and Hong Kong exemplify an East Asian Educational Model EAEM Such a model is rooted in and shaped by Confucian habitus unconscious and ingrained worldviews dispositions and habits that reflect the standards of appropriateness in a Confucian Heritage Culture aspires high performance a balance between academic excellence and holistic development and utilises educational harmonisation the art of bringing together different and contradictory means and ends to achieve desired educational outcomes Informative and thought provoking this book is a useful reference for policymakers researchers educators and

general readers on high performing education systems school reforms in East Asia Confucian influences on education and cross cultural policy learning and transfer **Measuring Teachers' Beliefs Quantitatively** Safrudiannur,2020-04-06 The use of Likert scale instruments for measuring teachers beliefs is criticized because of amplifying social desirability reducing the willingness to make differentiations and often providing less or no contexts Those weaknesses may distort teachers responses to a Likert scale instrument causing inconsistencies between their responses and their actions Therefore the author offers an alternative approach by employing rank then rate items and considering students abilities as one of the factors affecting teachers beliefs The results confirm that the offered approach may give a better prediction about teachers beliefs than does a Likert scale instrument Equity in Excellence Siao See Teng, Maria Manzon, Kenneth K.

Poon,2018-12-20 This book offers a comprehensive picture of high performing East Asian education systems beyond their outstanding achievements in international assessments such as PISA and TIMSS Situating excellence within discussions of equity it contextualises the conceptions and pursuits of equity amid the development of education systems policy and curricula in selected East Asian societies While parallels could be observed across the systems including high stakes assessment culture increasing credentialism and high investment of family educational resources there are also divergences in approaches and outcomes relating to equity policies and practices In light of the challenges presented by low fertility rates ageing populations migration and the economic demands of the 21st century the book addresses these systems attempts to cater to further diversified student populations and maintain equity in excellence As the international community relentlessly seeks to enhance equity in education there is much these East Asian education systems can share This book has appeal internationally to researchers policymakers educators and anyone interested in East Asian education and equity

Education in Singapore Yew-Jin Lee,2022-04-06 This edited book is a comprehensive resource for understanding the history as well as the current status of educational practices in Singapore It is a one stop reference guide to education and educational issues concerns here There are three sections Part 1 provides a sectorial overview of how education has been organized in this country such as preschool special needs primary and secondary and adult education divisions In Part 2 contributors critically delve into issues and policies that are pertinent to understanding education here such as underachievement leadership language education assessment and meritocracy to question what Part 1 might have taken for granted Part 3 contains the largest number of contributors because it offers a scholarly examination into specific subject histories This section stands out because of the comparative rarity of its subject matter history of Physical Education Art Music Geography Education etc in Singapore **Early Childhood Development and Education in Singapore** Oon Seng Tan, Kenneth K.
