

A group of 78 third-grade students in a midwestern elementary school took a "self-concept" test that measured how well they felt about themselves. Higher scores indicate more positive self-concepts. A histogram and some summary statistics from Minitab for these students' self-concept scores are given below.

Descriptive Statistics: SelfConcept

Variable	N	Mean	Median	TrMean	StDev	SE Mean
SelfConc	78	56.96	59.50	57.81	12.41	1.41
Variable	Minimum	Maximum	Q1	Q3		
SelfConc	20.00	80.00	51.00	66.25		

1. Draw an appropriate density curve for summarizing the histogram on the graph above. How would you describe the shape of this density curve?

skewed left

2. One student in the group had a self-concept score of 62. Thirty-four students had self-concept scores higher than 62. Describe the location of this value within the distribution using raw data, percentiles, and standardized values (z-scores).

score of 62 : $\frac{44}{78} = 56.4\%$ percentile

$z = \frac{62 - 56.96}{12.41} \approx 0.41 \rightarrow$ about 0.41 standard deviations above the mean

3. What is a "typical" self-concept score for a third-grader in this group? Justify your answer.

59.5 \rightarrow use the median in a skewed distribution to measure the center because it is more resistant to extreme observations

The Political Injustice Affecting Our Schools, Teachers and Students Dr. G.V. Hair,2012-04-23 Why do politicians always claim our teachers and our educational system is failing our students Of course they claim an American student is lagging behind the rest of the worlds students but is this really the truth or do politicians have other societal and political reasons that need to be looked at The lack of support our federal and state politicians give to our teachers and our American educational system is embarrassing For the last 25 years politicians have used selective statistics and fear tactics to manipulate the public into believing our teachers and our American educational system has denied our students a solid education American Teachers and the American School System Did Not Fail Our Students is the first book to address the idea that our teachers and our American educational system were used as a political scapegoat to advance political careers and to promote a standardized form of society The book will be composed of an introduction with eight chapters The introduction will describe the reasons for writing a book to support teachers and American educational system The eight chapters that follow will describe different aspects of the educational environment and how they have been influenced by the standardized movement
