The film performed poorly in North American theaters but has since become a cult film.^[2] It has been hailed for its production design, depicting a "retrofitted" future,^[3] and remains a leading example of the neo-noir genre. It brought the work of Philip K. Dick to the attention of Hollywood and several later films were based on his work.^[4] Ridley Scott regards *Blade Runner* as "probably" his most complex and personal film. In 1993, the film was selected for preservation in the United States National Film Registry by the Library of Congress as being "culturally,
