**Indian Banking in the Globalised World** R. K. Uppal, 2008 ABOUT THE BOOK Banking sector reforms in India are aimed at induction of best international practices and technological changes for competing globally The Reserve Bank of India RBI has time and again emphasised transparency diversification of ownership and strong corporate governance to mitigate the prospects of systemic risks in the banking sector Banking sector reforms have supported the transition of the Indian economy to a higher growth path while significantly improving the stability of the financial system In comparison with the pre reform period the Indian banking system today is more stable and efficient However the gains of the past decade

need to be consolidated so that these could be translated to drive the institutions markets and practices into a mature financial system that can meet the challenges of globalisation The banking system would therefore not only need to be stable but also supportive of still higher levels of planned investments by channelling financial resources more efficiently from surplus to deficit sectors Competitive pressures as well as prudential regulatory requirements have made banks risk averse as reflected in their tendency to investment in relatively risk free gilt instruments The behaviour and strategies of banking business need changes in favour of risk taking even while performing core activities Also there is a need to ensure long term finance to support development and growth in the economy even as restructuring takes place through mergers and universal banking The present book addresses issues like Basel II Accord guidelines second generation banking sector reforms cost benefit and productivity analysis of Indian banks danger zone banks privatisation and comparative efficiency of Indian banks and the recent reform measures Vital statistics regarding the Indian banking sector and the recent Annual Policy Statement 2008 09 of the RBI has also been discussed About the author Dr R K Uppal did his M A in economics from Punjabi University Patiala in 1986 Thereafter he obtained M Phil degree from MDU Rohtak in 1987 and Ph D degree from Punjabi University Patiala in 2003 Specialising in banking and finance Dr Uppal has 11 books to his credit and has published 40 research papers on the subject in reputed national and international journals He has also presented more than 35 research papers in national and international conferences in Hawaii Indonesia Finland Costa Rica Australia London and the UK Presently he is head of the Department of Economics DAV College Malout Punjab and Principal Investigator of a UGC financed research project on Indian banking He is also Director of an ICSSR sponsored major research project on Indian banking *Ago-Iwoye Journal of Social and Behavioural Sciences* ,2005 **The Journal of Social Transformation** ,2005 *Southern Economist* ,2009

**Internationalizing the Internet** Byung-Keun Kim,2005 This compelling book focuses on the global formation of the Internet system It contests the common belief that the Internet s adoption was inevitable and instead examines the social and economic processes that allowed it to prevail over competing standards and methods for achieving a global information infrastructure The author demonstrates how the current Internet system was not the only possible choice nor the best data network in terms of technological and economic performance It is therefore vital he argues to understand the way in which different political and economic interests have helped shaped the Internet and allowed it to overcome rival technologies Issues of particular importance include the role of negotiations among different social groups in the design of the Internet as well as the influence of US promotion The author also examines patterns of growth and pervasiveness of the Internet between different regions and countries providing new evidence on the factors influencing the extent of the digital divide Using econometric models he goes on to identify the features of the co evolution of the Internet and other sub systems within countries and highlights the most interesting features of their local and global interplay Researchers and academics involved with science and technology policy industrial and corporate change and the information society will welcome this insightful

original and highly pertinent book It will also be of value for anyone with an interest in how the backbone of the digital economy was formed *The Humanities and Globalization* Awam David Menegbe, 2005
