incorporation of statistical material and up to date policy developments Students are also encouraged to exploit useful links to internet and other media sites Particularly attractive from a teaching point of view are the range of tasks set for the students which are aimed clearly at rapid capacity building Chapters end by listing the key terms and concepts addressed to aid revision of material This is repeated in the glossary at the end of the book Most of the materials are derived from the British context but there is also a secondary focus on EU member states and beyond as well as a good chapter on global social policy Steen Mangen Department of Social Policy London School of Economics and Political Science UK
