This textbook addresses the central question of whether and in what way advertising has a lasting influence on the purchase decision process. For this purpose it takes a look at the focus of consumer behavior and market research. In the course of this the work conveys the basics of consumer behaviour in a comprehensible and clear language. Why is the shopping cart fuller than planned? Why does everyone want the latest smartphone so badly? The authors Stefan Hoffmann and Payam Akbar address the following topics in their book *Consumer Behaviour*. They begin with the understanding of the term and briefly outline the theoretical as well as methodological approach to consumer behaviour. They then discuss influences on consumer behaviour which take place first and foremost within us: Motivation, emotion and cognition as well as attitude and decision. They then show that behaviour differs systematically between different consumer groups. For this purpose they consider influences from the social, physical and media environment. At the end of the consumer behavior book they illustrate how buying behavior is embedded in general societal developments and thus constantly changes over time. This second edition of the book has been revised and updated by the authors. Clear textbook for exam preparation with many practical aids. The *Consumer Behavior* textbook is intended for students in the following disciplines: Business Administration, Psychology, Communications, Related disciplines.
