Data Science Careers Blueprint For Entrepreneurs 77 2108 Data Science:

Who's who in the West ,2000 Data Science Jobs Ann Rajaram, Want a high paying career in the exciting field of DataScience This is the ONLY book that will help you land a lucrative Analytics job in 90 days or less This book is the perfect guide for you if you fall into any of these categories You recently completed a masters degree or online course or bootcamp and want to get hired quickly as a Data Scientist Data Analyst Data Engineer Machine learning engineer or BI developer Looking to start a career in data science but unsure where to start You are an experienced tech professional but looking to pivot into analytics to boost your salary potential Tired of applying to dozens of jobs without getting a positive response and or final job offer F1 visa STEM OPT CPT students will also find this book helpful to land a job in this lucrative field The book will teach you proven successful strategies on Winning Profiles Turbocharge your resume and LinkedIn profile and start receiving interview calls from hiring managers Let JOBS CHASE YOU instead of the other way around LinkedIn A dedicated chapter on LinkedIn that teaches you some creative and SECRET ways to leverage the site and identify high paying jobs with low competition Niche sites A full list of niche job boards that other candidates have overlooked These sites have high jobs but lesser competition than the popular job search sites Upwork Contrary to popular opinion Upwork can help you make in data science jobs Learn proven techniques to help you bag contracts and start earning as quickly as next week 100 interview questions asked in real life data scientist interviews Other learner resources and much more Author is a practicing analytics professional who has worked in Fortune500 Firms like NASDAQ BlackRock etc Unlike most job search books that are written by recruiters or professors this book is written by a senior professional who rose quickly from analyst to managerial roles She has attended interviews of her own and knows clearly the frustrations and at times hopelessness of the job search process The systems in this book have successfully helped dozens of job seekers and will work effectively for you too Read on to launch your dream career Note this book is deliberately kept short and precise so you can quickly read through and start applying these principles instead of sifting through 500 pages of fluff This book includes Data Science interview questions and answers Help preparing for Machine Learning Interviews Top 25 Interview Questions for Data Analyst Scientist roles An in depth overview of Data Science Interview Process How to ace your interview even if you are an Entry level Data Analyst Data Scientist Data Science Interview questions for freshers How and Where to look for jobs and much more *Data Science Careers, Training, and Hiring* Renata Rawlings-Goss,2019-08-02 This book is an information packed overview of how to structure a data science career a data science degree program and how to hire a data science team including resources and insights from the authors experience with national and international large scale data projects as well as industry academic and government partnerships education and workforce Outlined here are tips and insights into navigating the data ecosystem as it currently stands including career skills current training programs as well as practical hiring help and resources Also threaded through the book is the outline of a data ecosystem as it could ultimately emerge and how career

seekers training programs and hiring managers can steer their careers degree programs and organizations to align with the broader future of data science Instead of riding the current wave the author ultimately seeks to help professionals programs and organizations alike prepare a sustainable plan for growth in this ever changing world of data The book is divided into three sections the first Building Data Careers is from the perspective of a potential career seeker interested in a career in data the second Building Data Programs is from the perspective of a newly forming data science degree or training program and the third Building Data Talent and Workforce is from the perspective of a Data and Analytics Hiring Manager Each is a detailed introduction to the topic with practical steps and professional recommendations The reason for presenting the book from different points of view is that in the fast paced data landscape it is helpful to each group to more thoroughly understand the desires and challenges of the other It will for example help the career seekers to understand best practices for hiring managers to better position themselves for jobs It will be invaluable for data training programs to gain the perspective of career seekers who they want to help and attract as students Also hiring managers will not only need data talent to hire but workforce pipelines that can only come from partnerships with universities data training programs and educational experts The interplay gives a broader perspective from which to build
