**Abstract:** New safe and fast methods for grading of fruits have important place in agricultural economy. At the present time traditional grading methods have still been used broadly. But high costs and some inconsistencies guide post harvesting industry to automation applications in classification operations.

Recently, enterprises incline towards to automation systems for increasing working capacity and decreasing working costs. Inconsistencies associated with manual grading decrease when a automated grading systems are used. Thus, error rate and costs decrease while speed increases.

As known; size, shape, color and tissue are base criteria in the classification process. In this study, automatic apple grading by size and color using digital cameras and computerized image processing techniques were studied. The assembled system has achieved basic tasks but it needs to be developed further.

**Key words:** Image process, Digital image process, Machine vision, Fruit classification

### Bilgisayarlı Görüntü İşleme Yöntemleri ile Elma Tasnifi

**Özet:** Meyvelerin güvenilir ve hızlı bir şekilde sınıflandırılması için geliştirilen yeni yöntemler, tarımsal endüstride teknik ve ekonomik açıdan önemli bir yere sahiptir. Günümüzde halen yaygın olarak el ile sınıflandırma yöntemi kullanılmaktadır. El ile yapılan sınıflandırmadaki yüksek maliyet ve diğer tutarsızlıklar hesap sonucunda endüstriyel sınıflama operasyonlarında otomasyon uygulamasına gitmeye yönlendirmektedir.

Son yıllarda işletmeler iş kapasitelerini arttırmak ve işletme maliyetlerini düşürmek amacıyla otomasyon sistemlerine yönelmektedir. Otomatik sınıflandırma ile meyve tasnifi sayesinde el ile sınıflandırmada yapana bilecek insan faktöründen kaynaklanan tutarsızlıklar en aza inerek hata oranı büyük ölçüde düşmekte, hız artmakta ve maliyet azalmaktadır.

Bilindiği gibi geleneksel yöntemlerle elmaların sınıflandırılmasında boyut, şekil, renk ve doku gibi özellikler sınıflandırmanın temel kriterleridir. Bu çalışmada dijital kameralar ve bilgisayarlı görüntü işleme teknikleri kullanılarak elmaların otomatik olarak boy ve renk ayrımı yapmaya çalışılmıştır. Elde edilen düzeneğe temel olarak işlevlerini yerine getirmekte birlikte gelişime açıktır.

**Anahtar kelimeler:** Görüntü işleme, Sayısal Görüntü işleme, Makine görsel, Meyve tasnifi.

## INTRODUCTION

### Summary of Literature

In the studies of non destructive fruit classification apple (Bem *et al.*, 2002; Bernedean *et al.*, 2005; Rehkuşlar *et al.*, 1986), tomato (Wolfe *et al.*, 1989), orange (Pis *et al.*, 1993), wild myrtle and pepper (Wolfe *et al.*, 1985), prune (Delwiche *et al.*, 1993), wild grass (Hegger *et al.*, 1983), potato (McClure *et al.*, 1988) was examined.

To detect the fruit in front of camera, in some studies images taking from the camera are processing continuously (Hegger *et al.*, 1983, 1984) on the other hand some studies use sensor (Shropshire *et al.*, 1988).

Various studies have been done on the colors of fruit. Bem (2002), make color classification using RGB color components and CIE chromaticity with Matlab, make size classification with form factor and box structure methods.

McClure (1988) works with white potatoes to detect size and shape information, Rehkuşlar and Throop (1986) works with "Red Delicious" apples to detect defects of apples. Monochrome camera was used in both studies. At the end of works greens and other scars of potatoes creases and blemishes (reddish brown) of apples couldn't detected with

## **Fruit Grading Using Digital Image Processing Techniques:**

**Recent Advances in Postharvest Technologies, Volume 2** Nouredine Benkeblia, 2024-09-10 The elapsing time from producer to consumer has significantly increased as a result of food marketing and trade globalization. Consequently, maintaining quality along the food value chain is becoming a significant challenge. Postharvest losses are considered a major component of food loss and waste in the supply chain from farmers to consumers due to improper handling, storage, transport, preservation techniques, and spoilage. Postharvest science aims to extend the shelf life of fresh and perishable commodities and to reduce heavy losses, thereby contributing to food security. While significant progresses have been made in postharvest preservation and shelf life extension, the continuous development of emerging technologies has changed our vision on postharvest science. Furthermore, recent advancements in molecular engineering of horticultural crops for quality improvement, the development of genomics, transcriptomics, proteomics, and metabolomics have led to a better understanding of the physiology and the biochemistry of the senescence processes, resulting in better preservation and improved production of fresh crops. This two-volume work focuses on innovative technologies that extend and preserve the shelf life of fruits and vegetables. Volume 1 offers a review on the state of the art modern technologies in the postharvest field. The accompanying Volume 2 explores advanced and novel technologies after harvest, particularly the application of nanotechnologies to packaging materials.

**Modern Techniques for Agricultural Disease Management and Crop Yield Prediction** Pradeep, N., Kautish, Sandeep, Nirmala, C.R., Goyal, Vishal, Abdellatif, Sonia, 2019-08-16 Since agriculture is one of the key parameters in assessing the gross domestic product (GDP) of any country, it has become crucial to transition from traditional agricultural practices to smart agriculture. New agricultural technologies provide numerous opportunities to maximize crop yield by recognizing and analyzing diseases and other natural variables that may affect it. Therefore, it is necessary to understand how computer-assisted technologies can best be utilized and adopted in the conversion to smart agriculture. **Modern Techniques for Agricultural Disease Management and Crop Yield Prediction** is an essential publication that widens the spectrum of computational methods that can aid in agriculture disease management, weed detection, and crop yield prediction. Featuring coverage on a wide range of topics such as soil and crop sensors, swarm robotics, and weed detection, this book is ideally designed for environmentalists, farmers, botanists, agricultural engineers, computer engineers, scientists, researchers, practitioners, and students seeking current research on technology and techniques for agricultural diseases and predictive trends.

**Handbook of Research on AI-Equipped IoT Applications in High-Tech Agriculture** Khang, Alex, 2023-08-02 The agriculture industry is facing significant challenges in meeting the increasing demand for food while also ensuring sustainable development. Traditional agricultural methods are not equipped to meet the demands of the modern world. To overcome these challenges, the **Handbook of Research on AI-Equipped IoT Applications in High-Tech Agriculture** provides an in-depth analysis of the opportunities and challenges for AI-powered management tools and IoT-equipped techniques for the

high tech agricultural ecosystem The Handbook of Research on AI Equipped IoT Applications in High Tech Agriculture explores advanced methodologies models techniques technologies and applications along with the concepts of real time supporting systems to help agricultural producers adjust plans or schedules for taking care of their farms Additionally it discusses the role of IoT technologies and AI applications in agricultural ecosystems and their potential to improve product quality and market competitiveness The book includes discussions on the application of blockchain biotechnology drones robotics data analytics and visualization in high tech agriculture It is an essential reference for anyone interested in the future of high tech agriculture including agricultural analysts investment analysts scholars researchers academics professionals engineers and students

**Computational Intelligence and Image Processing in Agriculture** Jay Kumar Pandey, Mritunjay Rai, Tanmay Sarkar, 2025-12-11 Revolutionizing Agricultural Quality Control with AI Image Processing and Computational Intelligence Techniques As the global demand for high quality sustainable agricultural products increases advanced technology becomes critical in meeting these challenges Computational Intelligence and Image Processing in Agriculture explores how innovative technologies are transforming agricultural quality evaluation Combining foundational concepts with practical applications this comprehensive text delves into innovative techniques to improve accuracy efficiency and sustainability in quality control Addressing key challenges faced by researchers practitioners and industry professionals contributions from leading experts in AI agriculture and computational intelligence provide a deep understanding of technologies such as deep learning computer vision and AI driven robotics Real world examples step by step tutorials and code snippets make the concepts accessible and actionable while coverage of emerging trends and future directions highlights the evolving landscape of agricultural technology Offering interdisciplinary insights and practical tools to modernize evaluation techniques reduce waste enhance food safety and meet the growing demands of sustainable farming practices this book Addresses challenges and solutions for real time monitoring systems in agriculture Highlights cutting edge applications such as AI driven robotics and LiDAR in farming Emphasizes sustainability and environmental impact through technological innovation Offers detailed coverage of image analysis algorithms for quality control Discusses ethical and environmental implications of technology in agriculture This book is ideal for advanced undergraduate and graduate courses in agricultural engineering computer science and AI applications It is also an essential reference for professionals including agricultural scientists AI practitioners and quality control experts

*International Conference on Wireless, Intelligent, and Distributed Environment for Communication* Isaac Woungang, Sanjay Kumar Dhurandher, 2018-04-17 This book presents the proceedings of the International Conference on Wireless Intelligent and Distributed Environment for Communication WIDECOM 2018 organized by SRM University NCR Campus New Delhi India February 16 18 2018 The conference focuses on challenges with respect to the dependability of integrated applications and intelligence driven security threats against the platforms supporting these applications The WIDECOM 2018 proceedings features papers addressing

issues related to the new dependability paradigms design control and management of next generation networks performance of dependable network computing and mobile systems protocols that deal with network computing mobile ubiquitous systems cloud systems and Internet of Things IoT systems The proceeding is a valuable reference for researchers instructors students scientists engineers managers and industry practitioners in industry in the aforementioned areas The book s structure and content is organized in such a manner that makes it useful at a variety of learning levels Presents the proceedings of the International Conference on Wireless Intelligent and Distributed Environment for Communication WIDECOM 2018 organized by SRM University NCR Campus New Delhi India February 16 18 2018 Includes an array of topics related to new dependability paradigms design control and management of next generation networks performance of dependable network computing and mobile systems protocols that deal with network computing mobile ubiquitous systems cloud systems and Internet of Things IoT systems Addresses issues related to the design and performance of dependable network computing and systems and to the security of these systems

**Communication and Intelligent Systems** Harish Sharma, Vivek Shrivastava, Kusum Kumari Bharti, Lipo Wang, 2023-07-24 This book gathers selected research papers presented at the Fourth International Conference on Communication and Intelligent Systems ICCIS 2022 organized by National Institute of Technology Delhi India during December 19 20 2022 This book presents a collection of state of the art research work involving cutting edge technologies for communication and intelligent systems Over the past few years advances in artificial intelligence and machine learning have sparked new research efforts around the globe which explore novel ways of developing intelligent systems and smart communication technologies The book presents single and multi disciplinary research on these themes in order to make the latest results available in a single readily accessible source The book is presented in two volumes

Emerging Research in Data Engineering Systems and Computer Communications P. Venkata Krishna, Mohammad S. Obaidat, 2020-02-10 This book gathers selected papers presented at the 2nd International Conference on Computing Communications and Data Engineering held at Sri Padmavati Mahila Visvavidyalayam Tirupati India from 1 to 2 Feb 2019 Chiefly discussing major issues and challenges in data engineering systems and computer communications the topics covered include wireless systems and IoT machine learning optimization control statistics and social computing

### **Fruit Grading Using Digital Image Processing Techniques Introduction**

In the digital age, access to information has become easier than ever before. The ability to download Fruit Grading Using Digital Image Processing Techniques has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Fruit Grading Using Digital Image Processing Techniques has opened up a world of possibilities. Downloading Fruit Grading Using Digital Image Processing Techniques provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Fruit Grading Using Digital Image Processing Techniques has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Fruit Grading Using Digital Image Processing Techniques. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Fruit Grading Using Digital Image Processing Techniques. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of

authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Fruit Grading Using Digital Image Processing Techniques, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Fruit Grading Using Digital Image Processing Techniques has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

### **FAQs About Fruit Grading Using Digital Image Processing Techniques Books**

**What is a Fruit Grading Using Digital Image Processing Techniques PDF?** A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Fruit Grading Using Digital Image Processing Techniques PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Fruit Grading Using Digital Image Processing Techniques PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Fruit Grading Using Digital Image Processing Techniques PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Fruit Grading Using Digital Image Processing Techniques PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with

PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
