Planning Support Systems in

Practice Stan Geertman (géographe.),John Stillwell,2003 Planning Support Systems Technologies that are Driving Planning Michael Batty Centre for Advanced Spatial Analysis CASA University College London 1 19 Torrington Place London WC 1 E 6BT United Kingdom I had always thought the term Planning Support Systems abbreviated to PSS had been coined by the father of land use modelling Britton Harris in his article Beyond Geographic Information Systems computers and the planning professional published in the Journal of the American Planning Association in 1989 Harris 1989 Until I asked him

that is In a response to a paper he gave to the Urban and Regional Information Systems Association URISA in the summer of 1987 he told me that someone in the audience who he cannot quite remember actually coined the term referring to planning support systems as that constellation of digital techniques such as GIS which were emerging to support the planning process In fact the predecessor term decision support systems DSS from which this unknown originator obviously defined PSS by analogy was coined as far back as the late 1970s in the management literature for a loose assemblage of techniques usually computer based which aided management decisions The term slowly entered the geographicallexicon as spatial decision support systems SDSS and this is probably first attributable to Lew Hopkins and Mark Armstrong who used it in a paper published in AutoCarto 7 in 1985 Hopkins and Armstrong 1985 ELT in a Changing World Azra Ahmed, Mehnaz Hanzala, Faiza Saleem, 2014-09-18 A novel ELT resource for language specialists and teachers across the world this selection of papers is a collection of the most compelling and innovative ideas presented at a seminar hosted by the Centre of English Language Aga Khan University Pakistan in January 2011 entitled ELT in a Changing World Innovative Approaches to New Challenges The book is divided into three sections the first of which is Global change and language learning This section offers a guided tour of language teaching evolution highlighting the merits of enhanced language awareness self immersive and input output based learning and innovative pedagogical interventions Section Two Developments in Second Language theory and practice in Pakistan reveals the findings of the latest research conducted in Pakistan on language policy scholarship the development of traditional and e learning environments the relationship between language learning and immigration opportunities and the impact of language ideologies on individual identities Section Three Learning innovations discusses the need for change and fresh approaches to English language education and highlights the efforts made within the context of Pakistan to ensure the successful implementation of holistic needs based and socially driven curricula Highly readable and virtually jargon free the book will prove to be an excellent resource for those seeking up to date information on the teaching of English in Pakistan and other related parts of the developing world today **Information Security Theory and Practice** Gerhard P.
