Sentence Generation Yuko Sakai,2017-04-27 Many define the language in various phrases with various modifiers as a tool of communication However not all the language is communicated and the language is generated before the communication We have no words to communicate without thinking whose concrete act is to choose the words Therefore cognition and language have the same origin We the human beings have language to recognize and dominate the world including our own mind This is the reason why we have reason and language Language is not merely a tool of communication but it is indispensable to have reason and to be a Homo sapiens The reason is based on the outside world composed of space time We perceive the outside world and recognize it by naming or classifying in our each vocabulary Accordingly a linguistic theory which explains how and why the sentences are should start with the cognition The method is opposite to that of Aristotle s tradition which begins in the form and the contents are interpreted from the form based on the view that language is a tool of communication regarding only the communicated words as language The same view is also found in F de Saussure who regarded language as a given and socially approved system of signs Language is not a system of signs but what we generate just in the next moment If we shut up language does not exist The system or grammar may change with our usage of words moment by moment thus language continues to change as long as it is spoken Consequently this work finds the DEEP and UNIVERSAL STRUCTURE of sentence in the structure of the four dimensional cognition First we deduce what structure is necessary to express the four dimensional cognition Secondly we see how we generate the surface structures in five languages English Spanish Chinese Japanese and Ainu We define each word in syntactic tree diagrams just like chemical formulas to verify the deep structure in the surface structure

English Syntax Tree Diagram Yuko Sakai,2017-06-21 In this work we try to verify that English sentences are restricted and limited by the space time structure of cognition which may be the universal sentence structure while a sentence expresses a thought or cognition We see the reason why sentences vary in English explaining each sentence in a syntax tree diagram which is not based on form but on contents logically in sentence generation

Syntax on the Edge Diego Gabriel Krivochen,2023-08-21 What is the most descriptively and explanatorily adequate format for syntactic structures and how are they constrained Different theories of syntax have provided various answers sets feature structures tree diagrams Building on formal and empirical insights from a wide variety of approaches spanning more than 70 years including Transformational Grammar Relational Grammar Lexical Functional Grammar and Tree Adjoining Grammar this monograph develops a new mathematically grounded framework in which objects known as graphs and the constraints that follow from them are argued

to provide the best characterisation of the system of expressions and relations that make up natural language grammars This new approach is motivated and exemplified via detailed and formally explicit analyses of major syntactic phenomena in English and Spanish

Analysing Sentences Noel Burton-Roberts, 2016-02-12 This highly successful text has long been considered the standard introduction to the practical analysis of English sentence structure It covers key concepts such as constituency category and functions and also utilises tree diagrams throughout to help the reader visualise the structure of sentences In this fourth edition *Analysing Sentences* has been thoroughly revised and now features a brand new companion website with additional activities and exercises for students and an answer book for the in text exercises for professors The extra activities on the website give students practice in identifying syntactic phenomena in running text and will help to deepen understanding of this topic Accessible and clear this book is the perfect textbook for readers coming to this topic for the first time Featuring many in text end of chapter and Further Exercises it is suitable for self directed study as well as for use as core reading on courses
