Beginning and Intermediate Algebra, 2016 Beginning and Intermediate Algebra Molly O'Neill, Julie Miller, Nancy
Hyde, 2007 Built by teachers just like you Miller O'Neill continues to offer an enlightened approach grounded in the
fundamentals of classroom experience in Beginning and Intermediate 2e The practice of many instructors in the classroom is
to present examples and have their students solve similar problems This is realized through the Skill Practice Exercises that
directly follow the examples in the textbook Throughout the text the authors have integrated many Study Tips and Avoiding
Mistakes hints which are reflective of the comments and instruction presented to students in the classroom In this way the
text communicates to students the very points their instructors are likely to make during lecture helping to reinforce the
concepts and provide instruction that leads students to mastery and success The authors included in this edition Problem
Recognition exercises that many instructors will likely identify to be similar to worksheets they have personally developed for
distribution to students The intent of the Problem Recognition exercises is to help students overcome what is sometimes a
natural inclination toward applying problem solving algorithms that may not always be appropriate In addition the exercise
sets have been revised to include even more core exercises than were present in the first edition This permits instructors to
choose from a wealth of problems allowing ample opportunity for students to practice what they learn in lecture to hone their
skills and develop the knowledge they need to make a successful transition into College Algebra In this way the book
perfectly complements any learning platform whether traditional lecture or distance learning its instruction is so reflective of
what comes from lecture that students will feel as comfortable outside of class as they do inside class with their instructor
For even more support students have access to a wealth of supplements including McGraw Hill's online homework
management system MathZone Beginning and Intermediate Algebra with P.O.W.E.R. Learning Sherri
