Employee Handbook 2017 2018 Halifax County Public Schools:

Empowering Library Staff and Customers Christine D. Feldmann, Catherine E. Hollerbach, 2026-01-22 Learn how to create a library culture that not only empowers and supports its staff but provides compassionate and innovative services helping customers and communities thrive *Lessons for Education from COVID-19 A Policy Maker's Handbook for More Resilient Systems* OECD, 2020-12-15 The COVID 19 pandemic has shaken long accepted beliefs about education showing that learning can occur anywhere at any time and that education systems are not too heavy to move When surveyed in May 2020 only around one fifth of OECD education systems aimed to reinstate the status quo Policy makers must therefore maintain the momentum of collective emergency action to drive education into a new and better normal *The Routledge Handbook of African Law* Muna Ndulo, Cosmas Emeziem, 2021-11-23 The Routledge Handbook of African Law provides a comprehensive critical overview of the contemporary legal terrain in Africa The international team of expert contributors adopt an analytical and comparative approach so that readers can see the nexus between different jurisdictions and different legal traditions across the continent The volume is divided into five parts covering Legal Pluralism and African Legal Systems The State Institutions Constitutionalism and Democratic Governance Economic Development Technology Trade and Investment Human Rights Gender Based Violence and Access to Justice International Law Institutions and International Criminal Law Providing important insights into both the specific contexts of African legal systems and the ways in which these legal traditions intersect with the wider world this handbook will be an essential resource for academics researchers lawyers and graduate and undergraduate students studying this ever evolving field **ASIS Handbook & Directory** American Society for Information Science, 1984 **The Rise and Fall of Global Microcredit** Milford Bateman, Stephanie Blankenburg, Richard Kozul-Wright, 2018-10-09 In the mid 1980s the international development community helped launch what was to quickly become one of the most popular poverty reduction and local economic development policies of all time Microcredit the system of disbursing tiny micro loans to the poor to help them to establish their own income generating activities was initially highly praised and some were even led to believe that it would end poverty as we know it But in recent years the microcredit model has been subject to growing scrutiny and often intense criticism The Rise and Fall of Global Microcredit shines a light on many of the fundamental problems surrounding microcredit in particular the short and long term impacts of dramatically rising levels of microdebt Developed in collaboration with UNCTAD this book covers the general policy implications of adverse microcredit impacts as well as gathering together country specific case studies from around the world to illustrate the real dynamics incentives and end results Lively and provocative The Rise and Fall of Global Microcredit is an accessible guide for students academics policymakers and development professionals alike **Reframing Trauma Through Social Justice** Catrina Brown, 2024-07-31 This cross disciplinary volume examines and reframes trauma as a social and political issue in the context of wider society critiquing the widely accepted pathologizing of trauma and violence in current discourse

Rooted in critical social theory this insightful text reinvokes the critiques and analysis of the women's movement and the personal is political framing of trauma to unpack the mainstreaming of trauma discourse which has emerged today. Accomplished contributors address the social construction of femininity and masculinity in relation to trauma and violence and advocate for a broader framing of trauma away from the constrained focus on pathologizing and diagnosing trauma, individual psychologizing and therapy. Instead, the book offers a fresh and compelling look at how discursive resistance, alternative feminist and narrative approaches to emotional distress, and the mental health effects of violence can be developed alongside community-based preventive political and policy-based actions to create effective shifts in discourse, practice, policy, and programming. This is fascinating reading for upper-level undergraduate and postgraduate students, researchers, and academics in a broad range of fields of study including psychology, social work, gender and women's studies, and sociology, as well as for professionals including policy makers, clinical psychologists, and social workers.

Higher Education Student Financial Aid Kazi Abdur Rouf, 2020-03-25. The research finds that the majority of higher education student financial aid programs are managed by the states or private agencies or foundations in the world. Their financial aid policies are continuously changing and improving to adopt contemporary situations and changing times. Likewise, the GB higher education student loan policy improvement can be done by continuously reviewing the system, which is necessary for GB to strengthen its higher education student loan program in Bangladesh.

Fourth Estate, 1923. Managing Federalism through Pandemic Kathy L. Brock, Geoffrey Hale, 2023-11-07. Managing Federalism through Pandemic summarizes and analyses multiple policy dimensions of Canada's response to the COVID-19 pandemic and related policy issues from the perspective of Canadian federalism. Contributors address the relative effectiveness of intergovernmental cooperation at the summit level and in policy fields including emergency management, public health, national security, Indigenous Peoples and governments' border governance, crisis communications, fiscal federalism, income security, policies, CERB, supply chain resilience, and interacting energy and climate policies. Despite serious policy failures of individual governments, repeated fluctuations in the overall effectiveness of pandemic management and growing public frustration across provinces and regions, contributors show how processes for intergovernmental cooperation adapted reasonably well to the pandemic's unprecedented stresses, particularly at the outset. The book concludes that despite individual policy failures, Canada's decentralized approach to policy management often enabled regional adaptation to varied conditions, helped to contain serious policy failures, and contributed to various degrees of policy learning across governments. Managing Federalism through Pandemic reveals how the pandemic exposed structural policy weaknesses which transcend federalism but have significant implications for how governments work together or don't to promote the well-being of citizens.
