The German Ideology Summary And Analysis Like Sparknotes:

Early Modern Social Theory Murray E. G. Smith, 1998 Early Modern Social Theory Selected Interpretive Readings is a collection of essays that illuminates the course of development of modern social thought from the Enlightenment to the 1920s. The essays focus on the most prominent social theorists including Smith, Durkheim, Marx, and Engels, and Weber. Each essay has been chosen to provide the main contributions of the theorist and the political and economic context in which he worked. The editor, a noted scholar in the field, has written clear, concise introductions to each section and provided a glossary of frequently used philosophical terms. The collection includes two famous feminist critiques of the literature by Rosalind Wiseman and Lise Vogel, as well as papers by Tom Bottomore on Max Weber, Anthony Giddens on the division of labour, and essays by Mandel and Trotsky on Marx. Subject Guide to Books in Print, 1991. German Ideology Louis Dumont, 1994. In Dumont's words, the Frenchman sees himself as being a man by nature and a Frenchman by accident, while the German feels he is a German in the first place and a man through his being a German. Furthermore, while individualism in the French fashion stresses equality and centers in the sociopolitical domain in Germany, it focuses on the uniqueness, the irreplaceability of the individual subject and the duty to cultivate it by self-education (Bildung). The German ideology R. Pascal, 1947.
