**The Great Explorers** Robin Hanbury-Tenison, 2018-10-16 Penetrating biographies written by a group of distinguished travel writers, broadcasters, and historians reveal the lives, motives, and passions of forty major explorers in history. It has always been mankind's gift or curse to be inquisitive, and through the ages, people have been driven to explore the limits of the worlds known to them and beyond. Here are the stories of forty of the world's greatest explorers from Europe, America, Asia, and Australia. These are men and women who changed our perception of the world through their courageous adventures. Organized thematically, the book opens with the oceanic journeys of five hundred years ago when the great era of recorded exploration began. The following sections look at The Land, Rivers, Polar Ice, Deserts, Life on Earth, and New Frontiers. Many of these explorers recounted their journeys in vivid firsthand accounts; others were superb artists or photographers. The book features quotes from their journals and reports and is illustrated with paintings, photographs, engravings, and maps so that we can experience their adventures through their own eyes and in their own words. Featured explorers include Christopher Columbus, Vasco da Gama, James Cook, Lewis and Clark, Richard Burton, Samuel de Champlain, David Livingstone, Roald Amundsen, Gertrude Bell, Alexander von Humboldt, Yuri Gagarin, and Jacques-Yves Cousteau.

**The Great Explorers** Matthew James, 2016-06-21 From our modern perspective, it's difficult to imagine a time when the earth still contained mysteries and men headed out in wooden boats on journeys into the unknown. But that was not the case during the Age of Exploration. *The Great Explorers* tells the dramatic stories of the four men whose expeditions helped define this era: Bartolomeu Dias, Christopher Columbus, Vasco da Gama, and Ferdinand Magellan. They were demanding and imperfect leaders, single-minded in the pursuit of their goals. Their exploits on the high seas changed the course of civilization and helped create the modern world.
