Pagans and Christians in the City Steven D. Smith,2018-11-15 Traditionalist Christians who oppose same sex marriage and other cultural developments in the United States wonder why they are being forced to bracket their beliefs in order to participate in public life This situation is not new says Steven D Smith Christians two thousand years ago faced very similar challenges Picking up poet T S Eliot s World War II era thesis that the future of the West would be determined by a contest between Christianity and modern paganism Smith argues in this book that today s culture wars can be seen as a reprise of the basic antagonism that pitted pagans against Christians in the Roman Empire Smith s *Pagans and Christians in the City* looks at that historical conflict and explores how the same competing ideas continue to clash today All of us Smith shows have much to learn by observing how patterns from ancient history are reemerging in today s most controversial issues

The God Debaters Adrian Rosenfeldt,2022-05-04 This book examines the post 9 11 God debate in the West Through a close study of prominent English God debaters Richard Dawkins Karen Armstrong Christopher Hitchens and Terry Eagleton Adrian Rosenfeldt demonstrates that New Atheist and religious apologist ideas and arguments about God science and identity are driven by mythic autobiographical narratives and Protestant or Catholic cultural heritage This study is informed by criticism of the New Atheist polemic as being positivistic

and the religious apologists as propagating sophisticated theology In both cases the God debaters are perceived as disassociating themselves from human lived experience It is through reconnecting the God debaters intellectual ideas to their cultural and social background that the God debate can be grounded in a recognisable human reality that eludes reductive distinctions and disembodied abstractions *Jesus and Philosophy* Paul K. Moser,2008-10-13 What if anything does Jesus of Nazareth have to do with philosophy This question motivates this collection of essays from leading theologians philosophers and biblical scholars Part I portrays Jesus in his first century intellectual and historical context attending to intellectual influences and contributions and contemporaneous similar patterns of thought Part II examines how Jesus influenced two of the most prominent medieval philosophers It considers the seeming conceptual shift from Hebraic categories of thought to distinctively Greco Roman ones in later Christian philosophers Part III considers the significance of Jesus for some prominent contemporary philosophical topics including epistemology and the meaning of life The focus is not so much on how Christianity figures in such topics as on how Jesus makes distinctive contributions to them **An Organon of Life**
