Religion, Politics and Law in the European Union Lucian N. Leustean,John T.S. Madeley,2013-09-13 EU enlargement to countries in Central and Eastern Europe in 2004 the inclusion of Bulgaria and Romania in 2007 and increasing debates on Turkey s membership has dramatically transformed the European Union into a multi religious space Religious communities are not only shaping identities but are also influential factors in political discourse This edited volume examines the activities of religious actors in the context of supranational European institutions and the ways in which they have responded to the idea of Europe at local and international levels By bringing together scholars working in political science history law and sociology this volume analyses key religious factors in contemporary EU architecture such as the transformation of religious identities the role of political and religious leaders EU legislation on religion and the activities of religious lobbies This book was published as a special issue of Religion State and Society

Law and Religious Cultural Heritage in Europe Theodosios Tsivolos,2014-07-22 This book examines in detail both historical and current legal concepts of religious cultural heritage within the context of the European continent The latter group is primarily based on the variety of sacred cultural elements emanating from the different religious traditions of the peoples of Europe which are deemed worthy of protection and

preservation due to their outstanding value in terms of their social cultural and religious significance In view of this the study provides evidence of the European States active involvement with their sacred cultural treasures on the basis of the political and legal foundations of neutrality and pluralism Furthermore the book analyzes all relevant international legislative instruments i e the plethora of EU EC and UNESCO norms as well as all major European legislative patterns in light of their significance for the aforementioned aspects of pluralism and neutrality The interdisciplinary references listed at the end of each chapter provide an additional incentive for further reading on the subject matter The most important finding to emerge from the study is that there is a shared legal ethos in Europe that imposes a duty of appropriate care concerning the vast variety of sacred cultural goods and the religious cultural heritage in general as an invaluable repository of European cultural capital It also considers the sui generis nature of this capital like any other type of asset it may deteriorate or fade over time necessitating investment in its preservation or refurbishment nevertheless like no other this particular capital maintains a distinct cultural value as it contains an additional characteristic of sacredness expressed in the form of its religious character the latter being analyzed as a triptych of religious memory religious aesthetics and religious beliefs
