The Politics of Military Force Frank A Stengel, 2020-12-08 The Politics of Military Force examines the dynamics of discursive change that made participation in military operations possible against the background of German antimilitarist culture Once considered a strict taboo so called out of area operations have now become widely considered by German policymakers to be without alternative The book argues that an understanding of how certain policies are made possible in this case military operations abroad and force transformation one needs to focus on processes of discursive change that result in different policy options appearing rational appropriate feasible or even self evident Drawing on Essex School discourse theory the book develops a theoretical framework to understand how discursive change works and elaborates on how discursive change makes once unthinkable policy options not only acceptable but even without alternative Based on a detailed discourse analysis of more

than 25 years of German parliamentary debates *The Politics of Military Force* provides an explanation for 1 the emergence of a new hegemonic discourse in German security policy after the end of the Cold War discursive change 2 the rearticulation of German antimilitarism in the process ideational change norm erosion and 3 the resulting making possible of military operations and force transformation policy change In doing so the book also demonstrates the added value of a poststructuralist approach compared to the naive realism and linear conceptions of norm change so prominent in the study of German foreign policy and International Relations more generally [A New Beginning for Humankind](#) R. The world is reaching a nuclear tipping point and a catastrophe looms Even the United Nations can't seem to do anything about the threat Given the circumstances people everywhere need to unite to prevent a disaster In this new study peace activist R B Herath explains what's at stake and what everyday people can do to solve the problem Here are some of the questions Herath seeks to answer What are the major violent conflicts in the world today Is there any guarantee that none of the ongoing violent conflicts will deteriorate into a worldwide fiasco If there is no such guarantee what needs to be done to prevent such an eventuality Is there anything more to be done to ensure lasting peace on the planet By taking steps to prevent tension from building up to a tipping point and by building a stronger system of checks and balances it's possible to resolve conflicts at all levels through peaceful means Join Herath as he seeks to change habits that promote war to habits that promote peace in the face of the present troubled state of the world *The Solo Librarian* Lucy Roper, 2024-06-18
