Management Cisco Router Configuration Troubleshooting Second Edition serves as a reference for students studying network and system administration If your course tackles how to configure and maintain existing Cisco routers as well as get new hardware up and running add this book to your reading list The author begins by touching on the foundation behind routing technology networks protocols and hardware Then he jumps right into router configuration discussing setup local and wide area networking security and monitoring By providing advice and preferred practices instead of just rehashing Cisco documentation Tripod gives students information they can start using today The troubleshooting section uses a fictitious company to illustrate the different scenarios an administrator might encounter It includes situations that deal with Cisco routers as well as hardware from other companies mimicking the heterogeneous environment most administrators face

Information Assurance Andrew Blyth,Gerald L. Kovacich,2013-04-17 When you first hear the term Information Assurance you tend to conjure up an image of a balanced set of reasonable measures that have been taken to protect the information after an assessment has been made of risks that are posed to it In truth this is the Holy Grail that all organisations that value their information should strive to achieve but which few even understand Information Assurance is a term that has recently come into common use When talking with old timers in IT or at least those that are over 35 years old you will hear them talking about information security a term that has survived since the birth of the computer In the more recent past the term Information Warfare was coined to describe the measures that need to be taken to defend and attack information This term however has military connotations after all warfare is normally their domain Shortly after the term came into regular use it was applied to a variety of situations encapsulated by Winn Schwartz as the three classes of Information Warfare Class 1 Personal Information Warfare Class 2 Corporate Information Warfare Class 3 Global Information Warfare Political sensitivities lead to warfare being replaced by operations a much more politically correct word Unfortunately operations also has an offensive connotation and is still the terminology of the military and governments
