Modern Short Stories for Students of English Peter J. W. Taylor,1979 **Selected Short Stories** Arthur M Jensen,2019-06-27 English by the Nature Method Arthur M Jensen Selected Short Stories The purpose behind the present collection of short stories is a double one Firstly it has been my intention to give to those who have gone through the main part of English by the Nature Method a chance to continue their studies in an easy and natural way by simply reading stories written in a language that they already command Thus at the beginning of this book the stories make use only of the 2300 words contained in English by the Nature Method By degrees new words are introduced and these are explained by the help of the same 2300 words plus such new words as may have been taken into use in the stories already given In this way the pupil s knowledge of words is increased little by little until at the end of the book it includes 3700 words in all carefully chosen among those most frequently used in the English language In the second place I have had in mind to try to be of help to those who may in other ways have reached a certain amount of knowledge of English but who feel that they cannot directly gain an entrance into the world of English writers without spending too much time and labour The specially prepared short stories of this book make up a convenient bridge leading the reader by easy steps from the usual school knowledge of English to an understanding of the language normally used by English writers Arthur M Jensen
