Industry 4.0 and Advanced Manufacturing Amaresh Chakrabarti, Satyam Suwas, Manish Arora, 2022-07-23 This book presents selected papers from the 2nd International Conference on Industry 4.0 and Advanced Manufacturing held at the Indian Institute of Science Bangalore and includes deliberations from stakeholders in manufacturing and Industry 4.0 on the nature needs challenges opportunities problems and solutions in these transformational areas Special emphasis is placed on exploring avenues for creating a vision of and enablers for sustainable affordable and human centric Industry 4.0 The book showcases cutting edge practice research and educational innovation in this crucial and rapidly evolving area This book will be useful to researchers in academia and industry and will also be useful to policymakers involved in creating ecosystems for implementation of Industry 4.0

Intelligent Computing Kohei Arai, 2022-07-06 The book Intelligent Computing Proceedings of the 2022 Computing Conference is a comprehensive collection of chapters focusing on the core areas of computing and their further applications in the real world Each chapter is a paper presented at the Computing Conference 2022 held on July 14 15 2022 Computing 2022 attracted a total of 498 submissions which underwent a double blind peer review process Of those 498 submissions 179 submissions have been selected to be included in this book The goal of this conference is to give a platform to researchers with fundamental contributions and to be a premier venue for academic and industry practitioners to share new ideas and development experiences We hope that readers find this book interesting and valuable as it provides the state of the art intelligent methods and techniques for solving real world problems We also expect that the conference and its publications

will be a trigger for further related research and technology improvements in this important subject **Books in Print**,1987 **Publisher's Monthly** ,2002 **Books in Print Supplement** ,1988 **International Books in Print** ,1990

Gender and Climate Change Joane Nagel,2025-08-05 Does gender matter in global climate change This timely and provocative book takes readers on a guided tour of basic climate science then holds up a gender lens to find out what has been overlooked in popular discussion research and policy debates We see that around the world more women than men die in climate related natural disasters the history of science and war are intimately interwoven masculine occupations and preoccupations and conservative men and their interests drive the climate change denial machine We also see that climate policymakers who embrace big science approaches and solutions to climate change are predominantly male with an ideology of perpetual economic growth and an agenda that marginalizes the interests of women and developing economies The book uses vivid case studies to highlight the often surprising gendered impacts of climate changes This new edition is a thorough update that includes revised and new chapters and new material that takes account of the significant advances in climate research environmental and social theory and the many political and social challenges posed in the wake of US elections Covid 19 pandemic and rapidly changing climate and environment The new edition also takes account of important social and cultural movements that resist challenges to women s rights and advocate for gender sexuality and racial justice This book will appeal to students researchers and academicians interested in environmental studies and gender studies It also will be of interest to policymakers activists and others involved with environmental policy and governance **Mathematical Reviews**
