**Application and Theory of Petri Nets and Concurrency** Luis Gomes, Robert Lorenz, 2023-05-27 This book constitutes the proceedings of the 44th International Conference on Application and Theory of Petri Nets and Concurrency PETRI NETS 2023 which took place in Lisbon Portugal in June 2023 The 21 full papers included in this book were carefully reviewed and selected from 47 submissions They were organized in topical sections as follows

Process mining semantics tools verification timed models model transformation The book also includes two invited talks in full paper length

**Quantum Inspired Intelligent Systems** Leandro dos Santos Coelho, 2008-05-29 Research on applying principles of quantum computing to improve the engineering of intelligent systems has been launched since late 1990s This emergent research field concentrates on studying on quantum computing that is characterized by certain principles of quantum mechanics such as standing waves interference quantum bits coherence superposition of states and concept of interference combined with computational intelligence or soft computing approaches such as artificial neural networks fuzzy systems evolutionary computing swarm intelligence and hybrid soft computing methods This volume offers a wide spectrum of research work developed using soft computing combined with quantum computing systems

Fundamental of Microprocessors & its Application A.K.Chhabra, 2005 World first Microprocessor INTEL 4004 a 4 bit Microprocessor came in 1971 forming the series of first generation microprocessor Science then with more and advancement in technology there have been five Generations of Microprocessors However the 8085 an 8 bit Microprocessor is still the most popular

Microprocessor The present book provides a simple explanation about the Microprocessor its programming and interfacing The book contains the description mainly of the 8 bit programmable Interrupt Interval Timer Counter 8253 Programmable communication Interface 8251 USART 8251A and INTEL 8212 8155 8256 8755 and 8279

**Recent Trends in Image and Signal Processing in Computer Vision** Shruti Jain, Sudip Paul, 2020-03-04 This book highlights recent advances and emerging technologies that utilize computational intelligence in signal processing computing imaging science artificial intelligence and their applications It covers all branches of artificial intelligence and machine learning that are based on computation at some level e.g artificial neural networks evolutionary algorithms fuzzy systems and automatic medical

identification systems Exploring recent trends in research and applications the book offers a valuable resource for professors researchers and engineers alike

**Load Frequency Control of Microgrids** Bhuvnesh Khokhar, K P Singh Parmar, Tripta Thakur, D P Kothari, 2024-06-20 The book focuses on describing the emerging microgrid concept and its various constituents

especially the EV technology and investigates the load frequency control performance of different microgrid configurations by implementing the modern control theory An exhaustive study is presented on the various renewable energy sources and an up to date status of their installed capacity and power generation The text presents case studies for load frequency control of a microgrid in its various operating modes This book Discusses power system stability significance of load frequency control in power system modeling of a microgrid and frequency deviation response Covers various energy storage technologies such as superconducting magnetic energy storage electrochemical energy storage and compressed air energy storage Presents modes of interaction of the electric vehicles with the utility grid and implementation of the electric vehicles for load frequency control Illustrates control approaches for load frequency control and metaheuristic optimization algorithms Showcases the study of load frequency control for standalone microgrid systems grid connected microgrid systems and multi microgrid systems It is primarily written for senior undergraduates and graduate students in the fields of electrical engineering electronics communication engineering and renewable energy
