Course Project Management An Najah National University:

The Future of Higher Education in the Middle East and Africa Habib M. Fardoun, Kevin J. Downing, Mandy Mok, 2018-03-26 This book addresses some of the challenges posed by the globalization of higher education. It examines the emergence and resulting challenges of English as Lingua Franca (ELF) and of the decision to use English as the Medium of Instruction (EMI) as part of a strategic policy of internationalization. It looks at survival challenges caused by globalization and expansion, the diversity challenge, the concept of marginality and how marginality can lead to creativity, teaching and encouraging entrepreneurialism, the tools needed for internationalizing higher education in developing countries, innovative approaches, the intelligent use of technology and finally the value of non-constraint engagement in driving teaching and course quality improvements. The expansion of higher education and the increasingly international body of students and staff continue to inspire and drive the development of global higher education systems. Whilst these systems began locally, many are now engaging with the challenges of retaining their local flavour whilst embracing the march of globalisation. The challenge is to find local solutions that also meet the requirements of the rapid development of what might be termed the massification of international higher education. This book reflects these contemporary challenges through its variety of topics taken from countries as diverse as Hong Kong, Panama, South Africa, USA and Saudi Arabia. The topics are as diverse as some of the local solutions, but each chapter represents a response to a rapidly changing global landscape. [E-Learning in the Middle East and North Africa \(MENA\) Region](#) Alan S. Weber, Sihem Hamlaoui, 2018-02-27 In the last decade, due to factors of ICT infrastructural and broadband maturation, rising levels of educational attainment and computer literacy and diversification strategies, e-learning has exploded in the Middle East and North Africa (MENA) region. However, significant barriers remain in the region: e-learning development, lack of research on outcomes and effectiveness, paucity of Arabic language learning objects, monopolies and high cost of telecommunications, cultural taboos, accreditation, censorship and teacher training. This unique volume is the first comprehensive effort to describe the history, development and current state of e-learning in each of the 20 MENA countries from Algeria to Yemen. Each entry is expertly written by a specialist who is acutely familiar with the state of e-learning in their respective country and concludes with a bibliography of key reports, peer-reviewed books and articles, and web resources. [E-Learning in the Middle East and North Africa \(MENA\)](#) proves itself as a vital compendium for a wide readership that includes academics and students, transnational program directors, international education experts, MENA government departments, commercial vendors and investors, and ICT development and regulatory agencies involved in e-learning in the Middle East. **Artificial Intelligence and COVID Effect on Accounting** Bahaaeddin Alareeni, Allam Hamdan, 2022-06-09 This book considers the effects of COVID-19 on accounting, particularly with regard to the role of artificial intelligence in accounting in the post-pandemic business environment.
