Gcse 9 1 Mathematics Ocr:

International Reflections on the Netherlands Didactics of Mathematics Marja van den Heuvel-Panhuizen,2019-08-13 This open access book inspired by the ICME 13 Thematic Afternoon on European Didactic Traditions takes readers on a journey with mathematics education researchers developers and educators in eighteen countries who reflect on their experiences with Realistic Mathematics Education RME the domain specific instruction theory for mathematics education developed in the Netherlands since the late 1960s Authors from outside the Netherlands discuss what aspects of RME appeal to them their criticisms of RME and their past and current RME based projects It is clear that a particular approach to mathematics education cannot simply be transplanted to another country As such in eighteen chapters the authors describe how they have adapted RME to their individual circumstances and view on mathematics education and tell their personal stories about how RME has influenced their thinking on mathematics education

OCR GCSE Maths Practice Papers and Solutions

Michael Fan,Sarah Yang,2020-04-19 This book supports students preparing for the OCR GCSE exam The practice papers in the book are carefully modelled after past papers and specifications of exam board to ensure that the papers as a whole provide a rich and varied practice to meet all requirements of GCSE mathematics with an appropriate difficulty Papers are designed to teach students the most easily applicable reusable and fastest solutions to typical problems and utilise problems which target areas of maths which students typically forget under the pressure of an exam Solutions provided have been reviewed by many students to ensure that they are easily understandable while being the fastest and most re applicable

School Leadership between Community and the State David Lundie,2022-09-08 This book presents changes in UK and global educational governance in the context of a radical shift in the operating logics of politics and its interaction with education Beginning from the colonial origins of political interest in education the author traces a fundamental shift in the patterns of governance of schools in England in the opening decades of the 21st century Operating through the logics of public choice economics involving both real markets and quasi markets policy reforms have increasingly framed school values and the value of schooling in line with a politically determined and nostalgic discourse of British values This stands in contrast to a previous focus on community cohesion which foregrounded school partnership with the parent community and wider society Tracing the processes and mid level actors mediating between government and school leaders the author identifies processes of recontextualisation through which policy can be reinscribed and resisted
