of scientific ethnographic and historical questions broad in scope and responsive to heard music Whether measuring acoustic phenomena studying popular music or deciphering manuscripts of early polyphony the Association promoted wide engagement as well as the establishment of academic musicology Meanwhile members including W B Squire Edward J Dent Thurston Dart and Stanley Sadie transformed public understanding Their work in music library development opera Musica Britannica early music criticism and music lexicography helped gain global recognition for British scholarship With arts study under pressure in the current uncertain climate the Association s recent concern for real world issues in diversity practice based research and the vital role of music in schools remains true to its founding spirit The Illustrated History of Music
