Have The Relationship You Want:

The Relationship Coach John F. Sullivan, 2024-10-01 My real goal in writing this book is for you the reader especially if you are experiencing difficulties in your relationship to come away knowing that you are not crazy and that there is hope The tools are available in today s world to have the relationship of your dreams What are those tools Your playbook explains the four key pieces for unlocking the combination to a successful relationship Your relationship has to be safe Your old reptilian brain has a 500 million year history you are not going to change it If you don t feel safe you will defend yourself You must eliminate any negativity in the Space Between Think of your relationship as the two of you plus the Space Between you It is a real energy field and you can tell when there is tension in the Space Between It is either tension free or it is not There is no middle ground Negativity in the Space Between causes disconnect and what you want is connection You want to refill the Space Between with positives If your old brain hears affirmations and appreciations on a daily basis it can relax You feel connected This is not the enemy over there it is my ally my friend we are on the same team You must learn to talk to your partner in a safe way There will always be things to discuss in your relationship The Safe Conversation process gives you a system and structure to do just that To love well is a skill but like any skill it needs practice You now have the playbook to create the relationship you want It is up to you to put these ideas into practice

The MindBody Code Mario Martinez, PsyD, 2014-11-01 Why is it so difficult to change our beliefs and behaviors even when we know they no longer serve us How can certain individuals reverse incurable disease while others suffer the effects of childhood wounds despite years of therapy How is it that the centenarians make up the fastest growing segment of the U S population even though the majority of people over the age of 100 rarely visit their doctors When Dr Mario Martinez began his career in clinical neuropsychology he was determined to find the answers to baffling questions like these With The MindBody Code he shares the rewards of an investigation that has spanned generations and cultures to reveal the most effective methods for initiating deep and lasting change and the empowering new science of biocognition that substantiates their results Far from a quick fix approach The MindBody Code will challenge you to embrace a bold paradigm for health and wellbeing that requires your courage patience and commitment You will not only learn the basics of this cutting edge science you will learn to communicate with your body in its own biosymbolic language to begin making changes that till this point may have been elusive at best Through fascinating case studies and practical training in embodying the methodology Dr Martinez illuminates The overt and subtle ways our cultural beliefs impact our immune system and the pathways to healing the archetypal wounds of shame abandonment and betrayal How to break through the ceilings of abundance that limit prosperity and create the subcultures of wellness that will help you reach your full potential Lessons from the centenarians how to transform aging consciousness to continually increase your value and competence as you grow older Psychospiritual conflicts getting to the root of challenges often mistaken as psychiatric disorders Why do so many popular methods of personal transformation fail despite our efforts

and intentions Because they don't address the mindbody code your body's operating instructions for interpreting your world creating your sense of self and defining what's really possible for you The MindBody Code is your key to safely and successfully confront your fears disillusionment and learned helplessness with tools that harness the hope joy and unconditional love you hold within Course objectives Explain the overt and subtle ways our cultural beliefs impact our immune system and the pathways to healing the archetypal wounds of shame abandonment and betrayal Discuss how to break through the ceilings of abundance that limit prosperity and create the subcultures of wellness that will help you reach your full potential Utilize lessons from the centenarians how to transform aging consciousness to continually increase your value and competence as you grow older Define psychospiritual conflicts how to get to the root of challenges often mistaken as psychiatric disorders
